MAINTAIN DIGESTIVE HEALTH

CLEANSER THE COLON

CLEANSER AND DETOXYFIER THE LIVER

PRODUCT SKU: 13284 | 7-DAILY SERVINGS

## Why Choose NutriClean 7-Day Cleansing and Detoxification System?

The NutriClean 7-Day Cleansing System sets itself apart from the competition by using exceptional herbs and botanicals to detoxify, cleanse, and purify the digestive tract and liver. This innovative 3 step process provides a comprehensive approach to digestive health that helps to purge the body of accumulated toxins in only one week. When taken as directed, the NutriClean 7-Day Cleansing System works diligently to cleanse the digestive system as it flushes out the colon, and supports the body's natural processes of restoration and cleansing.

## Why is maintaining colon health so important?

It is well accepted that the average American diet tends to be quite high in both fat and calories. Modern lifestyles are not conducive to good colon health. Over a period of time, a diet lacking in certain nutrients and fiber can cause undigested food to slow down its transit time in the colon. Also, toxins and bacteria from this leftover residue can lead to occasional constipation. Such consequences certainly make the case for paying attention to the maintenance of sound colon health and a viable reason to cleanse the colon.

	Product	Area of Digestive Health Targeted
Step 1	NutriClean HepatoCleanse	Consists of natural botanicals and nutrients that can help to support healthy liver function. NutriClean HepatoCleanse is a dynamic way to cleanse and detoxify the liver and blood while helping to excrete toxins that have accumulated over time.
Step 2	NutriClean Release	A combination of special herbs and botanicals that provide a safe, easy, and effective means of maintaining a healthy digestive tract via regularity. Release tablets work to cleanse the bowel gently, supporting the gastrointestinal tract's ability to both absorb necessary vitamins and minerals, and eliminate toxins.
Step 3	NutriClean Advanced Fiber Powder	Relieves occasional constipation, thereby balancing the activity of the bowel. This combination of fibers and probiotics teams up to deliver optimum cleansing by purifying the colon as it balances the bowel, and promotes a healthy immune system.
