

City of Bennet

Safety Action Plan

The City of Bennet is developing a Safety Action Plan (SAP) with **one clear goal: zero traffic-related serious injuries or fatalities**. While Bennet is fortunate to have seen very few serious traffic incidents and no fatalities in recent years, we believe in being proactive and keeping our community safe.

Help shape the Transportation Safety Plan!

Review and share your feedback on proposed transportation safety projects. Recommendations are available for review on the project website. Submit your input by November 5, 2025.
