Volume 2 – Issue 6

An Update in Pictures!

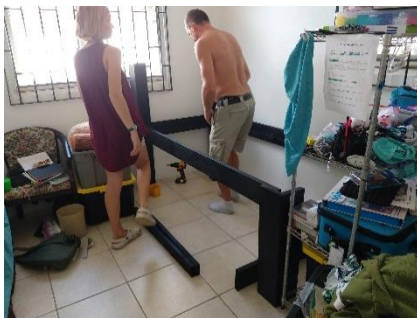

3-16 A quick dip in the Layou (Lie-you) River for a break from the heat.

3-20 We took a trip after church to the Cold Soufriere (sulfer spring) which was only a couple minutes hike from the road.

Eliyah helped Jason make the bedframe she “ordered.”

3-22 Jason took Hannah and Gracia to Olivet Church for a work day. The second story of their church building will eventually house Pastor Simon, his wife and Sunday School classrooms.

Jason and the kid's new favorite place, The Hub International. You can play pool here for free. We made friends with one of the workers, Kaci, and have invited her to church with us.

3-23 Jason was finally able to start experimenting with his foam generator to make aircrete. This will be a cinder block replacement.

3-27 A couple from church mentioned they have a farm so we had to visit! Brother John and Sister Patsie's farm was like no farm we've ever been to! It felt like walking around in a jungle, filled with pineapple plants and fruit trees.

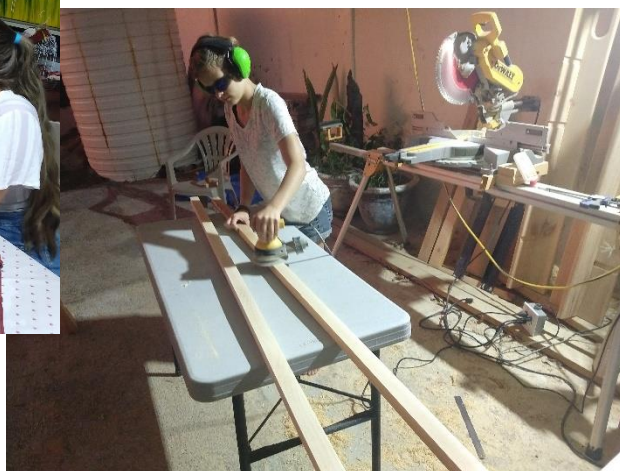

3-28 We spent an evening with a family from South Africa. We were given their number at a new café Jason found. One of the owners knew they had kids our kid's ages. Jan (Yawn) and Louise have been here 4 years. They have 3 daughters, the oldest is off to college, Miané (Me-ah-nay) is 17 and Lanieke (La-neeka) is 15. These girls had a blast, talking and playing all evening! We're looking forward to our next

get-together and are praising Jesus for new friends for our girls. (Bonus, their girls LOVE books and they're sharing!)

3-29 We had our first harvest of green beans!

Now that Elijah's bedframe is done, Gracia has drawn up what she wants to have made so that's been an ongoing project for the past week.

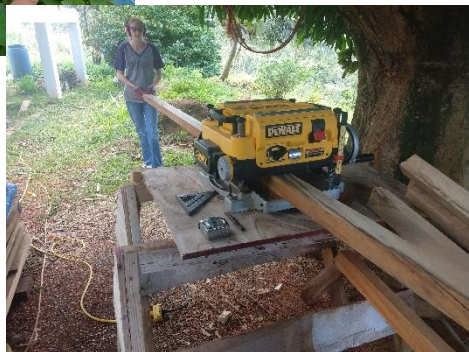

Jason & Hannah have still been helping up in Portsmouth on the veranda project.

And finally.....

Meet **MANGO**, our new family member! After several disapoinments, a week of adoption attempts falling through, Elijah is finally the proud owner of this roughly 7 week old male kitten!

Jason made contact with Josh, from Training Hands Academy in the States. They're in the process of starting a partnership of sorts for the Basic Carpentry Class. Josh has many

videos on YouTube about the basics of carpentry and more. This past week's class was the first time they utilized those, learning proper routing techniques.

I have no picture for this, but Jason spoke live on Voice of Life Radio on

March 26th. He was able to tell the story of God moving our family to Dominica and call the men of the island to seek Biblical masculinity. He will have future opportunities to unpack that as the station has asked him to come back and speak again.

Our prayer requests remain the same for now. We still don't have a vehicle or know where we're moving in two months. We know we serve an awesome God who has promised to provide for our needs. I remind myself that His timing and His plan is always perfect. I wait for the Lord, my soul does wait, and in His word do I hope. Psalm 130:5

Jesus is King!

Until next time, the *Groggs*
