IMPACT

CHANGE IS IN WHAT WE DO.

Sustainability is our priority, corporate vision and future direction. We are committed to moving the goalpost on what sustainability is in our industry, and putting an end to harmful greenwashing practices or false claims. Sustainability requires us to change what we choose, question why we do, and innovate how we bring product innovations for a better tomorrow.

OUR **SUSTAINABILITY** APPROACH

PRODUCT TRANSPARENCY

Ensuring genuine product sustainability by using AWARE blockchain tracker technology with GRS certification to monitor and validate the genuineness and impact of recycled fabrics used in our products.

OCEAN HEALTH

Supporting plastic collection at scale through our partnership with Ocean Bottle - each reusable Ocean Bottle supports collection of 1000 ocean-bound plastic bottles closing the circle.

CIRCULAR SOLUTIONS

Some of our products are created from waste materials, which are fully recyclable too to make new materials again and again, creating a closed loop circular solution.

SAFE WATER & SANITATION

By 2025, about 50% of world population will experience 'water stress'. We have provided 3% of sales from CHANGE Collection to Water.org to help them bring access to safe water and sanitation to millions around the world.

OUR SUSTAINABILITY IMPACT HIGHLIGHTS

ACCUMULATED IMPACT DATA UNTIL MARCH 31, 2023

323 MILLION LITERS OF WATER SAVED

Since we launched our CHANGE Collection, we have saved 323 million litres of water from use in irrigation in convention cotton.

851,634 PLASTIC BOTTLES REPURPOSED

Instead of disposing plastic bottle waste, we collect and reuse it to create new, stylish, recycled products such as bags and polo which are part of our CHANGE Collection.

13,308 PEOPLE PROVIDED WITH LIFETIME ACCESS TO SAFE WATER

Through our partnership with Water.org, we donate 3% of each sale from our CHANGE Collection to help water-stressed communities get lifetime access to safe water & sanitation.

ENABLING CHANGE AT LARGE ORGANIZATIONS

Enabling 100s of our clients with sustainability efforts and stakeholder education on genuine supply chain sustainability

16,192,000 PLASTIC BOTTLES COLLECTED

Through a collaborative effort with our stakeholders and partners, we have prevented 16.1 million plastic bottles or roughly around 184,600 kgs of plastic from entering the ocean.

MADE FROM WASTE, TO END WASTE.

We believe that Circular Design can save the world.

Circular Design is a workable solution at a time when the world desperately needs solutions. We create products made with recycled materials, designed to last and fully recyclable. We work to a simple yet immensely challenging rule of 100-10-100. Any product created can only be justified if it's trying to or helping to achieve 100% recycled content, designed for at least 10 years use and then 100% recyclable at the end of its useful life.

- 
1. **Make from recycled materials.**
- 
2. **Design to last.**
- 
3. **Ensure 100% recyclable.**

Circular&Co Reusable Cups Branded & Bespoke

Are you looking for a sustainable and beautiful option to showcase your brand and commitment to the circular economy? We work with brands and businesses from across industry sectors to create bespoke branded cups. We offer a range of printing options depending on the look and feel you require.

Our most popular and cost-effective option is the highly durable, single-colour printing. We can print on either one or both sides of your reusable. We can also offer more customised options, including full-colour, full-wrap designs, Pantone matched lids and tailored outer labels.

Talk to us about minimum order quantities and any specific requirements.

THE END OF GREENWASHING

TRANSPARENCY, TRACEABILITY, AND GENUINE SUSTAINABLE IMPACT

We believe true sustainability can only be achieved when there is transparency and traceability. Without genuine proof of the use of recycled materials in a product, all sustainability claims can be considered greenwashing. Our IMPACT and CHANGE collections aim to end greenwashing and lead our industry in a new direction.

IMPACT THE POWER OF TRACEABILITY

AWARE

All recycled content claims are validated with AWARE™ which unites a physical tracer with public blockchain technology for trusted traceability.

CHANGE. SERIOUS SUSTAINABILITY

DESIGN & SUSTAINABILITY

CHANGE Collection is all about design, sustainability & giving back. All recycled fabrics, plastics, and materials used in this collection are 100% certified by the Global Recycled Standard (GRS) and Recycled Claim Standard (RCS).

From each of these collections, 2-3% of sales are donated to  water.org* to help provide water-stressed communities with lifetime access to safe water & sanitation.

Tacx

BIO BOTTLES MADE IN THE NETHERLANDS

Tacx Are you looking for a bottle fully made of biodegradable materials? Then the Bio-Bottle of Tacx is a great choice. It stands out because the plastic of the bottle is biodegradable. Adding a small amount of bio-material changes the molecular structure so the material finally breaks up in biogas and biomass. This feeds the soil and it's completely absorbed by nature. The process of disintegration starts when the bottle ends up at a microbiological environment (compost heap, waste disposal).
