PART - 4

MADE FROM WASTE, TO END WASTE.

We believe that Circular Design can save the world.

Circular Design is a workable solution at a time when the world desperately needs solutions. We create products made with recycled materials, designed to last and fully recyclable. We work to a simple yet immensely challenging rule of 100-10-100. Any product created can only be justified if it's trying to or helping to achieve 100% recycled content, designed for at least 10 years use and then 100% recyclable at the end of its useful life.

- 
1. **Make from recycled materials.**
- 
2. **Design to last.**
- 
3. **Ensure 100% recyclable.**

the Future is Circular.

Circular Impact

Assumptions: Single-use paper cups weighing 20g.
x6 single-use paper cups used to make each Circular Cup

We've diverted over
313,500 kilograms
away from landfill and into
the Circular Economy.

We've helped bring
Circularity to 28
different countries.

We transform
**18 single-use
cups per minute**
into longer lasting reusables.

Through our Circular Cups
we've introduced over
2.6 million people
globally to the world of
Circular Design.

We've recycled and transformed
over
**15.5 million
single-use cups**
into Circular&Co. Reusables

Why choose the Circular&Co. Reusable Cup?

circular
&co.

The award-winning Circular reusable cup, made using recycled single-use paper cups, is 100% recyclable and completely leakproof for the perfect combination of premium functionality and sustainability.

Branded & Bespoke

Are you looking for a sustainable and beautiful option to showcase your brand and commitment to the circular economy? We work with brands and businesses from across industry sectors to create bespoke branded cups. We offer a range of printing options and price points depending on the look and feel you require.

Our most popular and cost-effective option is highly durable, single-colour printing. We can print on either one or both sides of your reusable. We can also offer even more customised options, including full-colour, full-wrap designs, Pantone matched lids and tailored outer labels.

Talk to us about minimum order quantities and any specific requirements.

This simplistic designed stainless steel tumbler is not only aesthetically beautiful but is also protected with Biomaster, an Anti-Microbial agent that provides a second line of defence against harmful bacteria. The body and lid are both treated and it's IN the product, not ON the product which will give you permanent protection. This product is tested in accordance with ISO 22196 for Anti-Microbial effectiveness. Biomaster does not affect the recyclability of the item. The product also includes Verimaster a unique tracer that is built into the material to prove that the item is treated with Biomaster. With closable lid. PP inner, stainless steel outer. Capacity 250ml. BPA free.

UV protection fabrics are rated between UPF 25-39. Ultraviolet protection factor(UPF) measures blockage of UV-A and UV-B rays. A UPF rating of 25-39 means that our fabric allows 1/25th to 1/39th (2.56- 4%) of UV radiation that falls on the surface of the fabric to pass through it. Thus, 96-97.4% of UV rays are not allowed to reach your skin thereby protecting the skin from sunburn and long term skin damage.
