

NEW SERVICE

Integration Aide for schools and daycares

Integration Aides offer assistance tailored to children with behavioural challenges, learning disabilities and/or developmental delays. At Emery Psychology, Integration Aides are guided and supervised by Dr. Ann Emery to ensure a professional and collaborative approach.

HERE'S HOW EMERY PSYCHOLOGY CAN HELP MAKE A DIFFERENCE:

PERSONALIZED STUDENT SUPPORT

We provide one-on-one assistance to help children engage in classroom activities, follow daily routines, and participate in social interactions with peers. We can also adapt teaching materials and methods to meet each child's unique learning needs.

COLLABORATIVE APPROACH WITH EDUCATORS

We partner closely with teachers and specialists to implement individualized education plans (IEPs) and monitor progress. Regular feedback ensures that we are all working together towards the child's success.

BEHAVIOURAL GUIDANCE AND MONITORING

We foster a nurturing learning relationship by using positive reinforcement and effective behavioural strategies. Our goal is to help children confidently manage emotions and behaviours, paving the way for a successful educational journey.

OPEN COMMUNICATION WITH PARENTS

We believe in the power of teamwork. By maintaining regular updates and open lines of communication with parents, we ensure consistency between home and school/daycare, keeping you informed of your child's achievements and addressing any concerns promptly.

MEET

Sema

Sema Abu Shamleh is a fourth-year psychology student with a strong passion for working with children. She brings valuable experience from her roles as a daycare monitor, behaviour interventionist, and animator in children's workshops. Sema specializes in creating fun, engaging environments where kids can learn, play, and feel safe.

Fluent in both English and Arabic, she effectively communicates with kids from diverse backgrounds.
