

R.I.C.H. Kidz

- ❖ Our **R.I.C.H Kidz Experience** takes a deeper dive with a selected number of students that are identified by school administration and staff
- ❖ **5 Engaging Sessions** are held for 45min - 1hr
- ❖ **Worksheets/Writing Prompts** as well as **Pre and Post surveys** are administered to reflect student understanding of what it means to **Live R.I.C.H.** and gauge most impactful takeaways
- ❖ **Two options are available for facilitation (Standard or Music Influenced)**

R.I.C.H. Kidz sessions utilize our unique curriculum to highlight a different pillar of **Live R.I.C.H.** per session (*Respect, Integrity, Confidence, Humility*), with an introductory session to start. Sessions will further examine the definition, and how to employ action of each pillar discussed. Students will be engaged in ways that promote self-reflection and support social/emotional learning. Students will be given tools to positively approach scenarios they face and be empowered to work through conflict. Students are taught the importance of managing their emotions, setting goals, having a growth mindset, and positive relationship building.

*Sessions can be facilitated through our **Standard** session format, where content is discussed and curriculum is tailored, or through our **Music Influenced** format, where students are engaged with our content through music and work to create an expressive form of art at the conclusion of the experience.
