ABOUT US

At Bluth Solar, we are dedicated to powering a sustainable future through innovative and reliable renewable energy solutions. With a focus on solar panel systems and hybrid solar wind energy systems, we bring cutting-edge technology and expertise to homes and businesses worldwide.

Rooted in Switzerland and supported by a manufacturing unit in India, our global presence allows us to deliver high-quality, affordable, eco-friendly energy solutions tailored to diverse needs.

Our mission is to empower individuals and organizations to reduce their carbon footprint while enjoying energy independence and savings. At Bluth Solar, we believe in lighting the way toward a greener tomorrow—one panel at a time.

Join us in creating a sustainable world with renewable energy that works for you!

Expertise You Can Rely On: Skilled professionals ensuring perfect installation.

Sustainable and Green: Helping you reduce your carbon footprint.

Dedicated Support: Reliable service at every step of your journey.

Choose Bluth Solar for clean, efficient, and cost-effective renewable energy!

ADDITIONAL SERVICES

Financing

We offer flexible financing options, making it easier for customers to switch to solar without financial stress.

Residential Hybrid System

We discuss how homeowners can benefit from hybrid energy and what our residential solar solutions entail

Commercial Hybrid System

We shed light on the value and benefits of hybrid energy for businesses and present our commercial solar solutions.

Om Tekriwal
Ceo & Founder

At Bluth Solar, we go beyond delivering energy solutions — we are driving the transition to a more sustainable future. By harnessing the power of the sun and wind, we empower communities and businesses to build a cleaner, greener, and brighter tomorrow.

We address common questions and debunk myths about solar energy to support customers on their solar journey.
