

Health Equity Ambassador Activity Tracking Record

DEFINITIONS

One-on-One Education: individual sessions that increase knowledge of prostate, colorectal, and breast cancers; and cancer reduction strategies.

Group Education: sessions that increase knowledge of cancers via group presentations and population-based activities.

Community Resources: providing information, referrals, and guidance to groups or individuals about where to get help in the stages of change surrounding cancer control and prevention.

HEA Market: Specific cities identified in target diverse markets throughout the US. More specifically for the program: Memphis, Chicago, Atlanta, Charlotte and St. Louis
