Born: Roswell, N.M. 1945

A freelance artist since 1974, I'm self-taught and completely self-supporting through private commissions, shows and galleries. My sculptural work stems from ideas or phrases, usually involving social or political observation. The excitement comes in selecting the right materials to fit the idea: maybe concrete, household objects, plastic, shredded newspaper, coffee beans – whatever will express my story in a clever way. I often use animal shapes. I sometimes combine a sober idea with humor for impact. I also have a long history of working in five dimensions: the usual three plus working with large groups of artists and presenting performance in real time, involving ideas, costumes, props, music, lights, and spoken word.

- 2008 HI JACK a New Years Eve outdoor public alcohol-free celebration and live performance for which I was contracted by the First Night organization to perform. I assembled over 30 volunteers, organized dancers, musicians, recycled objects as props and arranged to have a freight container placed on the street in downtown Tacoma. Other features included a railroad barker, recorded music, costumed actors and a 24” high inflatable puppet springing from a jack-in-the-box. 2009 ping pong balls were launched at the finale, providing souvenirs for spectators. This 2 hour theatrical event emphasized the creation of musical instruments (on the spot) using recycled plastic vessels, tin cans, sticks and gravel. My responsibilities as producer included budgeting, securing funds, delegating responsibilities, setting rehearsals and schedules, procuring printed invitations, disseminating those, and instilling a feeling of responsibility in all participants. Tacoma WA
- 2007 CHAOS INTO ORDER, A 6 hour Art On The Ave non-stop performance art event involving 75 artist volunteers. 13 orators preached peace to sewing machine stitchers, much like orators reading the classics to factory workers in Cuba. Besides 19 stitchers, four nuns (one on a pogo stick), and an opera singer, we created a 22’ high recycled paper/ribbons scaffolding tower sculpture. I organized, delegated, raised money, promoted, created postcards and programs, and lined up the video recording of the event, now on You-Tube.

NOTE

Besides all this work, I'm a lot of fun, have owned 2 pink cars, was married once (no children), love to play Scrabble, and have now earned my living as an artist for over thirty five years. Before I began work as an artist, my professions included cartographer, architectural draftsman, waitress and recreational therapist at Seattle Mental Health Center.
