Henna Manufacturing Process

Picked off from henna field

Leaves of henna plants are plucked off from henna field or natural surroundings, finished manually by engaging man power.

Sorting Procedure

In sorting procedure leaves which are raw and are without any infections or defect are chosen for further processing. We are procuring High value Henna Leaves.

Grinding Process

Henna leaves are grinded in complete automatic machines.

Shifting Process

Grinded Heena is firstly shifted in machine and then twice shifted through cloth manually to take out all the impurities.

Packaging

Packing and sealing of finished herbal henna powder is carefully done. For extra freshness sometime double packing is done and packets are made containing different quantities using electronic weighing machine depending upon the requirement of buyers.

Natural Henna Powder

This range is better product of hair dye stuff to hue the hair. Paste of henna powder when applied to hair presents a reddish-brown color to the hair. We understand that your hair is most important factor contributing to your attractiveness and look and so we provide natural henna powder which is 100% natural and does not depart any edge effect to your hair. It will improve the health of your scalp, thereby treating a number of hair issues including dandruff, hair loss etc. This will also condition your damaged and frizzy hair strands and promote their healthy growth.

Ingredients

Ingredient	Percent
Lawsonia Inermis (Henna)	100%

Note: 100% natural plant product. The color serves as reference only (as performed on bleached hair) and may vary according to the harvest time. Also, color depends on hair type, existing hair color, warmth and duration.

How to apply

- Mix ½ cup (50 g) of henna with ¼ cup (59 ml) of warm water. Stir to combine. Once you've mixed the powder and water, cover the bowl with plastic and let it develop at room temperature for about 2 hours.
- Apply this paste uniformly on hair with the help of brush.
- Cover hair with plastic cap and leave it around 60 to 90 minutes as depends upon desired shade.
- Rinse off hair with plain water.

Natural Henna Powder

Patch Treatment

Note: Hair must be wash and dried before application of henna.
