

Wendinger Travel
Captivating African Safari ~ September 3 – 14, 2026
\$7,998 per person, double occupancy

Wendinger Travel invites you to join us on our *Captivating African Safari*. We'll begin our Safari on arrival in Nairobi. As we'll soon learn, Kenya's capital city has risen in a single century from a brackish uninhabited swampland to a thriving modern capital. In intervening years, it has become a mecca for adventurers, hunters and travelers from all over the world. Wasting no time at all, we'll be on the move in search of Africa's Big Five, referring to the five large animals of the African savannah – Lion, Leopard, Rhinoceros, African elephant and African buffalo. And you'll find the panoramas surrounding our first-class Game Lodge accommodations will be beyond belief!

Amboseli National Park

The Amboseli is a place of wide dry plains, where boundless horizons are tucked into the corners of the sheltering sky. Amboseli is particularly renowned for its large herds of elephants, including some impressively tusked bulls that are drawn to the park's lush swamplands. But the even greater giant that rules over these plains is a mountain. Mount Kilimanjaro, Africa's largest mountain, lies just over the border in Tanzania, but the most impressive views of its snow-capped peak are to be found on the Amboseli side.

Ol Pejeta Conservancy

Ol Pejeta Conservancy is a 90,000-acre wildlife conservancy located in central Kenya on the Laikipia Plateau. With the snowy peaks of Mt. Kenya as our backdrop, a game drive in East Africa's largest black rhino sanctuary is sure to be as beautiful as it is diverse. In this region of grass plains, acacia woodland and evergreen thicket, the conservancy holds some of the highest predator densities in Kenya.

Lake Naivasha

Lake Naivasha is the highest lake in the Rift Valley and is remarkably picturesque, set against a purple backdrop of the Eburru volcanic mountain range and lined by yellow barked Acacia Xanthophlea trees, and we'll take to the waters for a relaxing, yet exciting, boat safari.

Masai Mara Game Reserve

The Masai Mara Game Reserve is widely considered to be Africa's greatest wildlife reserve. Each year, the Masai Mara plays host to one of the world's greatest natural spectacles, the wildebeest migration. From July to October, the promise of rain and new grass in the north brings as many as 1.5 million wildebeest together into a single massive herd. The wildebeest bring new life to the Masai Mara, not just through their cycle of regeneration of the grasslands, but for the predators that follow the herds. The Masai Mara has been called the "Kingdom of Lions" in honor of the regal and powerful hunters that rule its grasslands.

The tour price includes Round-trip airfare from Minneapolis, Transportation by deluxe 7-seat stretch Land Cruisers, First-class Hotel and Game Lodge accommodations, Early morning and late afternoon game drives, and all meals while on tour.
