Where will your puppy be kept while you are not at home?

We do not and can not guarantee temperament, as we have no control over the environment and care the puppy ultimately receives once it leaves our home. Rapidly growing heavy boned pups must not be raised on hard surfaces for the first year. Doing so can cause permanent damage. Should breeding rights be considered, we do require that full health testing certifications be obtained and passed prior to breeding, and that the dog purchased from us can only be bred to another fully health tested boerboel dog. We do not sell our puppies with any breeding guarantees. This also means that we do not guarantee fertility or whelping success. No cross breeding is permitted. Pups can NOT be resold by BUYER without our authorization. All pups are sold with a purchase agreement that must be signed by BUYER before any registration related paperwork is received. If selected to potentially own one of our puppies, a \$1000 non-refundable deposit will be required to hold your place in line. This deposit is non-refundable, but is transferrable to future litters. Balances on pups must be paid in full by the 6th week of age.
