

## INDIA: MY COUNTRY, MY PRIDE

India is just not a country, but an emotion,  
where everyone is equal and treated with devotion.

Kashmir's snow-capped mountains and Dal lake,  
the beauty is heavenly; not fake.

The beauty of the lands of Punjab and Haryana is breathtaking,  
and the forts of Rajasthan are so mesmerizing.

India is not just a country, but a connection  
where animals are treated with affection.

The film industry from Maharashtra,  
and the divine Ghats of Kerala.

The beauty of rain in Meghalaya,  
and the unperturbed natural aura of the Himalayas.

Her people would always keep in the sense of euphoria,  
this is my motherland India.

This is the country for which many laid down their lives,  
just to make that the upcoming generations would survive.

Being an Indian is my pride.

Your hardships and struggle would be remembered,  
we are so grateful for your sacrifices that it couldn't be expressed in words.

India is not just a country but an emotion,  
and I promise to serve her with my complete devotion.

JAI HIND!
