

School Trip

Exploring new places and going to trips is an experience that stays with you forever. Recently, I was fortunate enough to go on a school excursion trip along with my classmates and teachers to Kangs Nirvana Waterpark on the 28th of September. We first had a fun-filled bus ride of three hours where we totally enjoyed ourselves dancing and singing various songs. Afterwards, we reached the destination and had our breakfast which included several tasty dishes. Then was the time for the adventure park. We first tried the Columbus which was indeed a thrilling experience. We even tried many other rides; such as the zip-line which was one of my favourites, or the wild bull and the roller coaster which surely gave us shills. The ride I enjoyed the most, was the raft slide which was so thrilling that my heart was pounding hard in my chest. The most awaited visit was to the waterpark. We tried various scary slides catered to all age groups which gave us real goosebumps. By the time of our lunch we were really hungry and so the meal tasted even better. Lunch was followed by the DJ. As the day drew closer, we were exhausted but happy. We boarded our buses with big smiles on our faces. The journey back to the school was the last fun we had in the day. It was a memorable day and an exhilarating experience. We hope that many such adventures await us in future.
