

An Unforgettable Trip to Nirvana Park

Trips and excursions play a vital role in creating unforgettable memories that can be stored in our life album forever. With this view in mind, our prestigious school organized an excursion after the half yearly exams. Our day began with the arrival of elated Manavites at the school premises. After being seated in the buses, the soft murmurs of munching with incessant chit-chats, singing and dancing displayed enthusiasm and gladness among the students. We reached the destination safely and all the teachers set off their students set off from their buses. Our excitement knew no bounds. We were thrilled to explore the place. We were taken to a huge hall for the breakfast. The aroma of the mouthwatering dishes was so tempting. We had the delicious breakfast and then all of us proceeded to the forest section of Nirvana Park that was an Adventure park. It was an enormous park which included adequate number of rides such as Columbus, bull ride, Zip-line, monorail etc. Each one of it was adventurous and thrilling. After the rides we proceeded to the second section of the park- the water park. The swimming pools, eye- catching slides, rain dance room with disco lights were all so mesmerizing.

As hunger made us weary, so we headed towards the hall where mouthwatering and delicious lunch with extraordinary dishes were served. After the lunch we danced and sang merrily. Finally, it was time to say good bye. Woefully, we had to go but our departure was made exciting with some evening snacks and refreshments. Then we began our return journey and it flourished with euphoria and ecstasy. It was indeed a memorable trip and an exhilarating experience.
