

SCHOOL TRIP (CLASS – IX)

I do not even have any words to describe this day. Being with my friends the whole day and doing nothing but enjoying my heart out – this is what I call a perfect day. Recently I, with my friends, went to Hoshiarpur for a school trip. There was a waterpark. I could literally not resist my excitement on seeing it. I was full of energy as soon as I stepped into the water and amusement park. Everything there was above my expectations. The rides, the food and also the place was absolutely amazing. Going there with my friends was the best thing that could happen. Without any doubt, my favourite thing there was the waterpark. There was also rain dance with music. Everybody danced here. All the slides were very enjoyable. Coming to the adventure park, it had everything I could ever think of. I absolutely loved the zip line. In the end , I would say that this day made me smile a lot.
