

## **School trip**

School trips leaves a great Impact on the mind of a student, as he goes on these trips without his family, with his friends; this allows him to rely on himself, take responsibility and enjoy the activities of the trip. On one such recreation trip, supervised by trip supervisors and school teachers, I went to Nirvana water park, Hoshiarpur nearly 135 km away from Mohali. We came to school early in the morning, sat in the bus and left for Hoshiarpur around 7:00 a.m. We reached there at 10:00 a.m. On reaching there, first we were made to wear entry bands on our wrists and then we entered. We had our breakfast which was very tasty and was very hygienically made. After eating our breakfast, we went for activities like zip line, Columbus, Bull ride. The rides were very enjoyable and entertaining. After these activities we went for swimming. Many rides on which we enjoyed a lot. Next we went for lunch which was very nicely prepared and was very delicious. After this we all gathered in a ground and were given chips, ice-cream and juice. My overall experience was very satisfactory and very enjoyable
