# Who We Are

## Adams County Food Council

The Adams County Food Council is a group developed from the Healthy Eating Work Group of the Adams County Health & Wellness Coalition. We intend to raise awareness of food access & availability in Adams County to promote a healthier lifestyle and address food insecurity.

**Vision:** Healthy foods for a healthier community.

**Mission:** Increase access to and affordability of healthy foods in Adams County while promoting local foods and nutrition and food safety education for all people.

**Goals:** Promote nutrition education ~ Increase healthy food access and affordability ~ Reduce chronic disease

Our first effort in 2020 was to place container gardens and herb gardens throughout the county, to provide free tomatoes and fresh herbs to residents in the community.

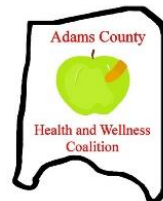

This Food Resource Guide is another way to promote local foods and to make everyone in Adams County aware of these food resources.

Efforts will continue in 2021 with more container gardens and a G.I.S. mapping system for all identified food sources.

We want to thank everyone who shared information and assisted us in gathering information for this food resource guide.
