

New Pedestrian Crossing Signs in the Village of Peebles

The Village of Peebles is committed to the safety of their residents and visitors.

In collaboration with the Adams County Health & Wellness Coalition, Village officials conducted a Walk Audit earlier this year.

The purpose of the walk audit was to identify any safety hazards relative to the sidewalks, street infrastructure and any other concerns that may arise as children and adults utilize this high traffic area.

As a result of this walk audit, one intervention that was imposed was installing pedestrian crossing signs to bring awareness to the crosswalk at Steam Furnace and Main Streets.

With children walking or biking to school, a safe crosswalk is imperative. Thank you to the Village of Peebles for their concerns and efforts with this project.
