

TRIBULATION TAMMUZ 17 COUNTDOWN

BIRTH PANGS OF THE MESSIAH

Signaling the Timing of the Rapture Portal?

The following study pertains to the 21-Day or 3 Week Countdown to the 9th of Av that the Religious Jews call Shiva Asar b'Tammuz. The reason being is that one will consider its possible Rapture Timing implications. It begins on the 17th of Tammuz as it marks the 3 Week Mourning Period leading up to Tisha B'Av or the 9th of Av. This day commemorates the breaching of the Walls of Jerusalem that eventually then led to the destruction of the 1st and 2nd Temples of YHVH. A chart will accompany the study to show the timeline since the Summer Solstice of June 21-22, 2025. The timeline will highlight Av 9 to possibly triangulate the Rapture's timing.

What the Triangulation suggests is that July 23 corresponds to the Phi Ratio Fulcrum or Center Vortex. And? This could suggest the Timing of the Rapture in one's estimation. This is of course if 2025 is the Rapture Year. For 2025, the 17th of Tammuz is July 13. The 9th of Av is August 3rd, etc. The 17th of Tammuz is the 2nd of the 4 Fasts of the Jews that commemorate the Golden Calf and the breaking of the 2 Tablets of the Law incident. However, one disagrees because of how one calculates that the Acts 2 Pentecost was when they occurred.

This Pentecost in turn, coincides with the First Fruits of the New Wine instead. One has calculate that it is July 23 when the Acts 2 events occurred, etc. Thus, Shiva Asar b'Tammuz is observed as a Minor Fast Day with eating and drinking forbidden from dawn until sundown. Now with the Mock Offering of the Red Heifer on July 9, 2025, many Students of the End Times are asking, are the Jews of the world going to turn their fasting and lamenting into joy and celebration? Perhaps it is on Av 9 that they will offer the selected Red Heifer instead?

Fast commemorating breaching of the walls of Jerusalem before the destruction of the 1st and 2nd Temples. Tzom Tammuz for Hebrew Year 5785 occurs at dawn on Sunday, 13 July 2025. The Seventeenth of Tammuz (Hebrew: שבעה עשר בתמוז, Shiv'ah Asar b'Tammuz) is a Jewish fast day commemorating the breach of the walls of Jerusalem before the destruction of the Second Temple.

It falls on the 17th day of the Hebrew month of Tammuz and marks the beginning of the three-week mourning period leading up to Tisha B'Av. Like other minor fasts, Tzom Tammuz begins at dawn (first light) and ends at nightfall (full dark). If the 17th of Tammuz falls on a Shabbat, the fast is instead observed the next day, the 18th of Tammuz (on Sunday).

Phi Ratio Rapture?

So, what does the Mock Offering of the Red Heifer and the 9th of Av have to do with the Rapture and its possible timing? It is all mathematical for the following assertions. Mind you, these are just one's suppositions and calculations. If one plots the days on a timeline from the day after the Summer Solstice of June 21, 2015, to the 9th of Av, August 3, 2025, the Golden Ratio Fulcrum will correspond, approximately to July 23, 2025. See chart for illustration. This happens to be one's personal highest Rapture Watch Date. Obviously, this is a 2-Dimensional depiction of the Golden Ratio. And?

If one 3-dimensionalizes the Phi Ratio Spiral, it will produce a 'Funnel' or Tunnel Effect. It essentially becomes a Portal as in a Star-Gate. This is one's supposition but it would corroborate one's Theory that the Rapture Rendezvous will occur at the Time and Place when the Lion's Portal or Gate opens. Here are the Golden Spiral properties. A Golden Spiral created from a Golden Rectangle expands in dimension by the Golden Ratio with every quarter or 90 degree turn of the Spiral. This can be constructed by starting with a Golden Rectangle with a Height to Width Ratio of 1.618. The Rectangle is then divided to create a Square and a smaller Golden Rectangle.

This process is repeated until it arrives at its center point, as shown as the Spiral. The Golden Spiral can also be constructed by creating an Arc that touches the points at which each of these Golden Rectangles are divided into a Square and a smaller Golden Rectangle. The Center Vortex of the Spiral thus increases to a width of 1 at Point A. The half rotation of 180 Degrees to point B expands the width of the Spiral to 1.618, etc. Continue another half turn of 180 Degrees to Point C to complete the full rotation of 360 degrees. The width of the Spiral from the center is now 2.618, which is the golden ratio (phi) squared. One's point is that Prophetic Time also occurs in Phi Ratio intervals.

All that mathematics to say that YHVH's timing is perfect, mathematical even. And is it that what Jesus inferred about a Harvest? It is how they are also pegged to a specific numerical coefficient. This is why the Rapture cannot just happen 'any time'. Jesus stated that, 'Are there not 4 Months and then comes the Harvest?' This was presumed to have been said near or on the Spring Equinox. If so, then it is a factor of 120 Day and just 4 days from the July 23 Rapture High Watch Day. It is also because that is when the Pentecost of Acts 2 occurred, it coincided with the First Fruit Offering of the New Wine.

March 20 Spring Equinox + 120 Days = July 18 + 4 Day Calendar Conversation = July 22

**July 23 if include End Date.*

What is also pertinent to the number calculation is that 120 Days composes 3 sections of a Circle of 360 Days if Days are as Degrees of Arc. Thus, one's point is that one can then further correlate the July 23 Date to the Rapture's timing as that approximates the Phi Ratio when the 3 dates are superimposed on a Circle. There is that 4 Day difference as the Circle is based on a 360 Degrees and Calendar before the Flood. One has to account for the 364 and 365 variants. This is how one can account for the 4 Days. It is where length a + length b is the whole of the Circle and where length a and length b are in Phi Ratio to it.

Rapture Rendezvous

Then length a corresponds to 240 Degrees and length b corresponds to the 120th Degree Marker on the Circle, approximately. The point is that this 120th Degree on the circle corresponds to a July 23 Pentecost New Wine. Thus, mathematically and geometrically, will this turn out to be the point in time where the Phi Ratio will correspond to the Rapture's Timing?

Will this date, based on the Triangulation from the Summer Solstice to the 9th of Av pinpoint the July 23 as the Rapture Event? Already there are 2 other Countdowns that lead to July 23, 2025. They are the 40 Days from the Friday the 13, June Israeli attack on Iran's Nuclear sites. Then it is 33 Days from the Summer Solstice. Coincidence? Or a confirmation of sorts?

TRIANGULATION OF DATES IN PHI RATIO

1) Summer Solstice: June 21, 2025

2) Rapture Event? July 23, 2025

3) Tu B'Av: August 3, 2025

One then asks, could July 23 be the time, mathematically and geometrically when Eternity is achieved and activated in that one's Body will put on Immortality and Incorruptibility? And is that the time and place when corresponding to the Leo New Year, the Lions Gate will open for the Bride of Christ to rendezvous with Jesus in the Clouds through that Phi Ratio Spiral Star-Gate?

One of the books that one wrote was exactly about this type of research pertaining to the Astrological Leo New Year, being July 23 and the Lions Gate prophetic inferences. It will remain to be seen if this July 23 personal Rapture High Watch Day Theory will come to pass and if 2025 will even be the Rapture Year. However, world events continue to occur at an amazing pace.
