

EXODUS PASSOVER BLOOD MOON

CONFIRMATION A -1448 BC TO -1408 BC TIMEFRAME

Prophetic Echoes of the Passover Crucifixion Blood Moon

by Luis B. Vega

vegapost@hotmail.com

www.PostScripts.org

'At Midnight [April 15/Nisan 15] YHVH struck down all the First-Born in Egypt, from the First-Born of Pharaoh, who sat on the Throne, to the First-Born of the Prisoner, who was in the Dungeon, and the First-Born of all the Livestock as well. Pharaoh and all his Officials and all the Egyptians got up during the Night, and there was loud wailing in Egypt, for there was not a House without someone Dead'. -Exodus 12:29-30

The following study, along with a Chart Illustration will depict how one believes, the **Blood Moon of -1448 BC** marked the Day of the Exodus. This will be a long study. The Theory is not anything new really, as it has been considered by prior Researchers. For example, there is Robert Scott Wadsworth, who although he acknowledges the Blood Moon, he does not agree that it was during the Exodus. He has an earlier Exodus Date of -1454 BC, that is contingent upon the Retrograde of Jupiter in Pisces at that Time.

The following are just one's Observations. Because 'Prophecy is Pattern', one's Working Theory of why one is more convinced of this -1448 BC Blood Moon, being the occasion for the Day after Passover. And? It echoes the 32 AD Crucifixion Year. How so? Consider that in both cases, the Blood Moons occurred in the same Sign of Libra, near Midnight. In the case of Jesus' Passover Sacrifice, it was the very Day of the Passover. That Passover started at Sunset, on a Wednesday, April 14, 32 AD.

'Now the length of Time the Israelite People lived in Egypt was 430 Years. At the End of the 430 Years, to the very Day, all the YHVH's Divisions [Army] left Egypt. Because YHVH kept Vigil that Night to bring them out of Egypt, on this Night [April 15/Nisan 15] all the Israelites are to keep Vigil to honor YHVH for the Generations to come. -Exodus 12:40-42

The 2nd Part of the Theory strongly suggests that if 'Prophecy is Pattern', then Jesus had to fulfill what actually occurred back in Exodus, even Astronomically. This is to say that a Blood Moon had to occur also during the Passover-Exodus Time-Frame. And it did. For Years, one looked at the NASA Lunar Eclipse Page for a Blood Moon in a Passover Time-Frame of the Exodus. However, the Discrepancy and the Arguments of when the Israelites left Egypt is highly contentious. It made that Endeavor frustrating.

What adds to the Frustration is that there is a 1 Year Discrepancy one has to factor into the -X BC Years. Here is the Disclaimer from NASA. 'The Gregorian Calendar is used for all Dates from 1582 October 15 onwards. Before that Date, the Julian Calendar is used. **The Julian Calendar does not include the Year 0. Thus the Year 1 BCE is followed by the Year 1 CE.** This is awkward for Arithmetic Calculations. Years in this Catalog are numbered Astronomically and include the Year 0.

NASA Time

Historians should note there is a difference of 1 Year between Astronomical Dates and BCE Dates. Thus, the Astronomical Year 0 corresponds to 1 BCE, and

Astronomical Year -1 corresponds to 2 BCE'. Here is the List from NASA's Catalog of Lunar Eclipse Types. It is from the Segment of -1447 BC to -1443 BC. (-X BC + 1 Year)'.

NASA LUNAR ECLIPSE PAGE: T = Total, P = Partial, N = Penumbral

***Calendar: From NASA -1447 BC = -1448 BC (-X BC + 1 Year) Julian Calendar.**

So, if one understands NASA's Calculation of Years BC, if the Year -1447 BCE is noted, from the List, and using the Stellarium Software, the Blood Moon really occurred in -1448. In that case, the 40 Years, taken into account for the Exodus Wondering, would then make -1408 BC, the Year when the Israelites crossed into the Promised Land. It is based on the 40 Year Wondering, etc. Thus, if one factors the 70 Jubilees of 49 Years x 7 Cycles, and then a straight 50 Year Cycle, the following Timelines will be derived. Here is the Day Count from the Exodus, more precisely from Nisan 10 in -1408 BC, that one calculates is when Israel entered into the Promised Land.

A) 49 Years x 7 with 50th Year as 1st Year of subsequent 49 Year Cycle

-1408 BC Enter Land + 70 Jubilees (x 49 = 3430 Years) = 2022 Mathematical + Year 0 = 2023

<https://www.calculateconvert.com/calculators/date/history.php?era2=bcbce&month2=04&day2=10&year2=1408&era=adce&month=04&day=10&year=2023>

A) 50 Years and not the 50th Year as 1st Year of subsequent 49 Year Cycle

-1408 BC Enter Land + 70 Jubilees (x 70 = 3500 Years) = 2092 Mathematical + Year 0 = 2092

<https://www.calculateconvert.com/calculators/date/history.php?era2=bcbce&month2=04&day2=10&year2=1408&era=adce&month=04&day=10&year=2023>

It is rather interesting that if one starts with the -1448 BC Day of the Exodus and applies the 50 Year Counts, the End Year was 2012. Obviously, there is a Discrepancy occurring in the Start Years. This is why one cannot reconcile the Timelines based on the Jubilee Count as it is in dispute about how to count it and/or interpret it, etc. But what one can assert with more confidence, is that if indeed -1448 BC was the Year of Exodus Nisan 15 Blood Moon, then it mirrors what occurred in the 32 AD Blood Moon.

One will also assert that in both cases, the Factor of 3 was also in Play. This has to do with the 3 Days of Darkness and its Fractal of 3 Hours of Darkness at the Cross. One will present this Assertion in a later study that is contingent on the Theory of the Flybys of Planet X. So, what does this Exodus -1448 to -1408 Timeline mean? Well, because of the Blood Moon of -1448 BC, one has more Historical Confidence of when the Exodus actually took place, And?

Historical Confidence

With that, one will attempt to connect the Temples of YHVH to determine when they were Dedicated and Destroyed and when the 3rd Temple is to be Dedicated and Destroyed. This Theory will demonstrate, to a degree, approximately just how close this Last Generation is to see the conclusion of the Church Age with the Rapture and the start of Israel's Last Sabbath Week to conclude Daniel's 70th Week of Years.

Thus, one argues that the 2 Biblical Events of the Exodus and Crucifixion Passovers are based on these 2 Astronomical Blood Moon Markers and so it will occur during the 7-Year Tribulation Period as well, one conjectures. More ominous will be how the Seal Judgments, due to the coming Flyby of Planet X. And if so, then it strongly suggests that the present Church Age, as it pertains to Israel, is indeed the Fig-Tree. And this Generation is the 'Terminal Generation' that will see the Dispensation of Grace end.

Thus, it could very well mean that the Year 2025 will see the Start of Daniel's 70th Week of Years in the Fall, with the Abomination of Desolation occurring in Passover of 2029 and the Return of Jesus in 2032, exactly 2000 Years from 32 AD, etc. The purpose of the Pause or Pentecostal Intermission between the 69th and the 70th Week, was and is to precisely 'Graft-In' the Gentiles into the Commonwealth of Israel. Note that during the Exodus, Non-Israelites joined the Departure from Egypt, etc. Nonetheless, the Prophecy given to Daniel pertains to the Prophetic Triangulation concerning the following.

1. *His People*
2. *His City*
3. *His Temple*

So, the ~2000 Year Church Age has been what one calls the 'Pentecostal Intermission'. Once the Church Age Commission to the Gentiles is concluded, it will be the Rapture Event that will end the Church Age. The Rapture is not what commences the 2520 Day Count of the Tribulation Period. The 70th Week of Years begins sometime after. One argues that it is the Dedication of the Temple and the Daily Sacrifices that starts it.

And that the 'Confirming of the Covenant' was, and will be the Reading of the Mosaic Law, as it was done or 'Confirmed' in 2 prior Temple and Daily Sacrifice Dedications. The 2 prior Dedications and Confirmations were with Solomon and Ezra. One's Theory and Scenario is that the 3rd Iteration of this Dedication and Confirming will be instituted by the coming False Jewish Messiah and the False Prophet. It is the AntiChrist that will have sanctioned the rebuilding of the Temple. It will follow the 2 prior Dedications.

The Induction Ceremony that will dedicate the Temple will be the Occasion when the Ark of the Covenant will be brought-out. It will be much like King Solomon did. Realize this most important Biblical Linkage and why one is determining what should be the correct Exodus Year and how it is crucial based on the Blood Moons. The Exodus Timing is directly tied to when the 1st Temple was Built. The laying of the Foundations of the Temple occurred in the 4th Year of Solomon's Reign (1 Kings 6:1). So, if one determines the Exodus Year was -1448 and the Crossing into the Promised Land, then one can determine when the 1st Temple was built, and so when the 3rd Temple will be.

Rebirth of Israel

If Prophecy is Pattern, then the return of Modern Israel into the Promised Land, once again in 1948 establishes a Benchmark Year to go off of. It can be used to help determine when the Initiation of the Daily Sacrifice will begin. As to the 'Dedication'? One believes that Fire from Heaven will occur to consume the Offering, as it was with King Solomon. It will lend credibility to the AntiChrist's Power in Israel and the World. But it will be based on their Lying Signs and Wonders. So, one's Theory is that the 2 Blood Moons on Passover provide a Prophetic and Significance Benchmark Year.

Thus, it is a Historical Confirmation in one's Estimation, of when 1) the Exodus in -1448 BC, the Crossing into the Promised Land in -1408 BC and 2) the Crucifixion of Jesus in 32 AD actually occurred. This Triangulation of Events could correspond then to when 3) the Flyby of Planet X is to occur next on a Passover. This Timeline does not have to be pegged to a Jubilee Cycle Year Count, as some propose. What one is presenting is that the possible and of equally Amazing Prophetic Significance, is that the Astronomical Event of the -1448 BC Passover Blood Moon is the Confirmation of the Exodus Timing.

One realizes that this puts a Damper on the -1446 Exodus and the -1406 BC Crossing into the Promised Land Calculation. And with that, based on the 70 Year Jubilee Count, it would not then be in 2025, even if using a 49 or 50 Year Count. But here is where one will default to the 3 Principles in studying Eschatology as noted in prior Studies.

One's Triangulation of Biblical Inquiry serves as a 'Guard Rail' to strengthen one's Assertion and Rationale when considering Biblical Topics and Research, etc. 1) Scripture. 2) Prophetic Patterns. 3) Astronomical Signs. In this case, the Argument for the April 15, -1448 BC Exodus Night is because of the following. Let us start with Scripture. There are 3 Key Scripture References one will highlight to establish the Argument that the April 15, -1448 BC Blood Moon occurred at the Exodus Night. etc.

1. EXODUS 12:22

Note that YHVH commanded the Israelites to observe the Passover Lamb on the 14th Day of what became the Hebrew 1st Month of the Year, Nisan. This was the Month of April in the Julian Calendar that was nearly in-sync with the Hebrew one by 1 or 2 Days. The Command was not to go out of their House that Day of the Passover, until the Morning. That Day was April 15 when superimposing the Julian Calendar, but still Nisan 14, technically in the Hebrew Day Count.

2. EXODUS 12:29

This Passage states that YHVH slew the First-Born at Midnight of Nisan 14 or April 14 which was the very Night of the Passover, etc. This was the Midnight Hour as the Day, in the Julian Calendar turned to April 15, but not Nisan 15 yet. The Jewish Day Count of Nisan 15 would not start until the following Sunset.

3. EXODUS 12:37

The Old Testament records that on that very Night of the Passover, Pharaoh ordered the Israelites to leave Egypt. So, from Midnight of the Nisan 14, which was April 15 now, one interprets that the Israelites traveled from Rameses to Sukkot, that very Night. It was the initial leaving of the Israelites to the Day, as Scripture points out. But the Blood Moon occurred at the Midnight Hour of April 15, turning into April 16 in the Julian Calendar, but still Nisan 15, etc.

Which Exodus Year?

So, based on one's Exodus Day Count Interpretation, this is how one is relating the same Astronomical Sign to the Crucifixion Day of Jesus. Only that in the case of Jesus in 32 AD, the Blood Moon occurred at the Midnight Hour of the actual Passover Night. The Blood Moon was on the opposite side of the Sun, and in the Western Hemisphere, etc. The Sign was signaling that Jesus was the Passover Lamb, and how on that Day, Jesus was the First-Born that YHVH slew instead of the 'Egyptians', etc. The Scripture teaches that Jesus was and is the 'First Born of all Creation'. See Colossians 1:15.

It is not insinuating that Jesus was Created and not GOD as some Cults believe. So, based on this Triangulation of Scripture, Prophetic Pattern and Astronomical Signage, one is more convinced that the Exodus Year was -1448 BC. This has huge Historical Ramification as it would then make -1408 BC the Year that the Israelites crossed into the Promised Land, not in -1406 BC. Thus, the -1406 BC Calculation of how the Year 2025 is the 70th Jubilee Year was not accurate, etc.

In studying and researching the Exodus Year, there are at least 7 Major Years that are proposed: -1546 BC, -1491 BC, -1454 BC, -1445 BC, -1446 BC, -1447 BC, -1440 BC, etc. By far, the most popular Exodus Year is -1446 BC. This is how most Bible Students then determine that the -1406 BC was the crossing into the Promised Land. This 70 Jubilee Year Equations does seem to be 'Perfect'. However, here are Supporting Calculations though, for a -1448 BC Exodus Year. See the following excerpts.

1. ROBERT SCOTT WADSWORTH

He argues that the Exodus occurred on February 27, -1454 BC. It is because Jupiter, the Planet of the Messiah was 'Breaking' the Bands of Pisces, and retrograding into Aries, the Lamb at that Time. He acknowledges the April 15, -1448 BC Passover Blood Moon, but argues that the Planet Jupiter is what determined the 'Correct' Timeline. One obviously disagrees. Although the King Planet of the Messiah plays a Prophetic Role, the Blood Moon is just as pertinent to Israel but in terms of Omens and Judgment. And that is what the Exodus was all about, etc.

<https://biblicalastronomy.org/author/bobwadsworth>

2. BIBLE STUDY TOOLS

From Chronology of the Old Testament. 'In order to get the Time Limits of this Period, it is necessary to count back 37 Years from the end of Solomon's Reign in 933 BC, and this brings us to that Epoch-Marking Event, the laying of the Foundations of the Temple in 969 or 970, the 4th Year of his Reign (1 Kings 6:1); and from this Event we are brought by the addition of the Comprehensive Number 479, given in the same Verse, back to the Year of the Exodus, approximately 1448 BC, making the total length of the Period about 516 Years'.

6. FERRELL'S TRAVEL BLOG

We have 1448/47 BCE for the Exodus.

<https://ferrelljenkins.blog/2014/09/05/the-route-of-the-exodus-and-the-location-of-mount-sinai/>

7. SHADOWLAND: BEGINNINGS: WEEK 50

1 Kings 6:1 tells us Solomon began his Temple 480 Years after the Exodus, giving a generally agreed Date for the Exodus. There is less Agreement on which Pharaoh had the Plagues (as dating Egyptian Artifacts is problematic). **Thutmose II** is a Candidate, despite being dated a little before 1448, because **his is the only Mummy to display Cysts from Boils** (and Secular Scholars don't have the Hard Date from a Reliable Document that we do). **He also had a prosperous Reign, but both his Reign and the Prosperity suddenly ended with no Heir, leaving his queen Hatshepsut as Pharaoh.** Note that Pharaoh Ramesses named in the 'Ten Commandments' Movie is almost certainly not the pharaoh of the Exodus. **-1448 BC** the Exodus after 400 years in Egypt (Genesis 15:13).

<https://gathman.org/genesis/gen50.html>

Note the Mathematical Difference of a Jubilee Year Count of 50 (480 - 430) in how the Bible states that the Israelites were in Egypt for a total of 430 Years. Then it states that it was in the 480th Year after the Exodus when King Solomon started to build the Temple. One's Working Theory is that it took nearly 10 Jubilee Cycles of 49 Years to when Solomon started building the Temple. This Calculation would be -1448 BC of the Exodus + 480 Years (~10 Jubilees) to make the Year -968 BC when Solomon started building the Temple, not -966 BC. Does this Year Difference 'prove' that a Jubilee Cycle is to be a complete 50 Year Cycle?

430 Years Israel in Egypt – after 480 Years Temple = 50 Year Difference

Now in terms of the possible Rapture Timing connected to the Exodus Typology? There are those that see the Pattern of the Rapture being how the Israelites left Egypt. And on that very Night, at Midnight is when the Liberation or the Jubilee Year then occurred for the People of YHVH, etc. The Typology would follow how the Rapture Event, in this case would mirror a Liberation or Jubilee Timing Scenario and a 'Midnight Call', etc.

It is how as a Prophetic Typology; the People of Jesus will be freed from being bound to the 'Pharaoh' of this World. It would correspond to the coming AntiChrist and the Land of Egypt as a Type of Enslavement, etc. It would also commemorate the Passover, at the LORD's Supper Event in how it can be seen as a Ketubah or Marriage Contract. It is how and when Jesus purchased that Ketubah, by His own Blood and promised to return to finish celebrating with the 4th Cup. So, is the Rapture during a Passover Feast then?

When will the Church Age End?

It is the 4th Cup of Marriage that Jesus vowed not to partake anew, as in New Wine until the Bride is taken into the Kingdom. But then the other Prophetic Picture of the Timing suggests that it will be precisely during the Time of the New Wine. And that is then connected to one's Theory of New Wine Pentecost Timing, which is based on a July 23 (723) Factor, etc. But, if the Year -1408 BC is the Year the Israelites entered the Promised Land, as one is being more convinced of, that is 1 Thing one cannot prove.

Like with the issue of when is 'True Pentecost', the Exodus Timing is a Debate that is 1000's of Years Old. So, do realize that all this is just one's Point of View. But since one relies on Astronomical Signs, like the Blood Moon occurring on Nisan 15, one's Position is that it does appear to match the Scriptures about the Exodus, to the Month, Day and Hour. However, the Year -1448 BC may not be the Year of the Exodus. There is a lot that is still unknown, and what one is presenting in Speculation. If the Blood Moon in -1448 BC, was just the Sign, it could not have been the Prelude to the coming Exodus.

This means though, that no prior Years could have been the Exodus, as Signs are for noting Future Events, etc. However, in the case of the Exodus, the Sign occurred the Day after Passover. Or it could have been the case that the Exodus was to occur 2 Years later to match with a -1446 BC Exodus and a -1406 BC Crossing into the Promised Land. This is plausible too. However, one is putting a lot of Weight on the Blood Moon due to its Timing, perhaps unnecessarily. The issue is that the Rapture's Timing that closes-out the Church Age may or may not be tied to this Exodus Timeline.

The study here is more so about the Timing of the Temples. And that Year does have a Rapture Timeline that one surmises is linked to the Year 2032 as noted. And if one uses this Theory and Year Count, the Year 2025 Factor is possible for it to be the Rapture Year. How so? It is the case, if one subtracts the 70th Week of Years from 2032, instead of adding the 70 Jubilees since Israel entered the Promised Land, supposedly from -1406 BC.

But if the Tribulation Period does not occur on a Nisan 10, 2025, as some have adamantly calculated, then the -1406 BC Crossing and the Jubilee Year Calculation are inaccurate. Nonetheless, those who hold to the Nisan 10 for the Start of Daniel's 70th Week, will have to concede. It is just that the Rapture has to occur beforehand and the AntiChrist, 'Pharaoh 2.0' is yet to be revealed and sanction the 3rd Temple, etc.

Of course, one is predisposed to assume that it is during a Passover Feast that the AntiChrist's Spite would then stop the Daily Sacrifices and start to persecute the Jewish Remnant and any other Jesus Followers. Here is what is 'Wrong' with the Nisan 10 Start of the 70th Week of Daniel. One can then confidently assume that at the 1260th Day is when the 'Covenant' with the Many (L'Rabbim) is broken and the Daily Offerings cease, etc. If the Tribulation started in early April of 2025, it would put the Mid-Point of the 7-Year Tribulation Day Count in the Month of September. This Day Count would also then have the 2520th Day occur in a Month of March. If this would be the case, then the Fall Feasts, relatively speaking are 'out-of-sync'. And?

Out-of-Sync

Even those that propose the 7-Feast Typology is what YHVH is fulfilling in Jesus would generally agree that He is to return during the Fall Feasts, either at Yom Teruah or Yom Kippur in particular? If the 1260th Day from a Nisan 10 is the Mid-Point and the Sacrifices are to be stopped, in that case, where is the Altar of Sacrifice on which the Daily Offerings have to be offered from? Such will have to revisit the Alternative Exodus Year Count of the Exodus and when Israel entered into the Promised Land.

Perhaps such will consider that it was and is instead from a Time-Frame of -1448 BC to -1408 BC. And because of the Blood Moons, etc. It is not that one wants to be 'Right' or has to be, but the Nisan 10 Theory is assuming a lot. The Rapture either has to occur on that very same Day or earlier. So, the 'Crossing' into the Promised Land, in -1406 BC Calculation is a huge bet. A lot is riding on this Nisan 10 Date as mentioned. But here is why one is skeptical. One has shown that the Calculation, figured-out by Sir Anderson is off by 4 Days. The issue is when the New Moon and Nisan 1 were determined.

If anything, all one is insinuating is that one is not confident that the -1406 BC Start Date with its 70 Jubilee Cycles is 'Air-Tight' as it does appear. And it does not help with having to 'Add' or Subtract 1 Year even in the NASA Year Counts, as well as in Stellarium when counting BC Years. Stellarium follows the NASA Year Designation of a $(-X \text{ BCE} + 1)$ Equation. Even NASA's Statement mentions that it is 'Confusing'. Even the Torah Calendar is reflecting the Error of being 2 Days 'Off' when accurately converting from the Julian to the Gregorian, etc.

The following are Excerpts taken from Supernatural by Design YouTube Channel. It shows how, indeed, one's Assertion for Years, about the Passover Blood Moon occurring on a Wednesday in 32 AD can be proven. Source: <https://www.youtube.com/@SupernaturalByDesign>

THE JULIAN & GREGORIAN CALENDAR

THE TRUTH BEHIND THEIR ORIGINS, THE DISCREPANCIES AND ANTISEMITISM

'In 1582 Pope Gregory VII removed 10 Days from the Calendar to correct the Julian Calendar and align it with the Solar Year. This Adjustment was necessary because the Julian Calendar had accumulated Extra Days over Time. In fact, the Change was made to bring the Vernal Equinox back to March 21st, to the Date as it was up to 325 AD'. (Edited)

CONVERSATION TABLE BY THE NAUTICAL ALMANAC

OFFICES OF THE UNITED KINGDOM AND THE UNITED STATES, PUBLISHED IN 1961.
It shows the 2 Day Discrepancy between the Julian and Gregorian Calendar. This is Proof that one must add 2 Days to the Gregorian Calendar before 1582.

'April 14th, on the Gregorian is a Monday. However, its equivalent technically is April 16th on the Julian, which is a Wednesday'.

ZELLER'S CONGRUENCE ALGORITHM

CALCULATING THE DAY OF THE WEEK WITH ZELLER'S CONGRUENCE IN C.
Based on this Congruence, if one uses PlanetCalc Online Calculator, the Day of the Week by Date for April 14, 32 AD = Wednesday.

Why is it Important?

The Torah Calendar shows that Nissan 15, -1448 BC, at Midnight turning into the 16th, is when the Blood Moon occurred. It was 1 Day after Passover. Torah Calendar does account for the (-X BC + 1 Year) Adjustment. It also counts the Jubilee Years as being 50 Complete Years, not (49 Years + 50th Year), etc. However, as noted, Torah Calendar does account for the 2 Day Discrepancy as outlined and proven above, etc.

Day of the Week Calculator: PlanetCalc

<https://planetcalc.com/79>

Day of the Week Calculator: MIT

<https://people.csail.mit.edu/ddeford/dotw.html>

Torah Calendar: -1448 BC

<https://torahcalendar.com/Calendar.asp?YM=Y-1448M1>

All this is one's Evidence to note that the Exodus Blood Moon occurred on a Wednesday and could have verified the very Night of the Exodus, back in -1448 BC, etc. This goes the same for the 32 AD Crucifixion Year, Month and Day. It was not on a Monday as it is currently shown on all Gregorian Online Calculators.

But if one adjusts for the 2-Day Discrepancy, historically, one will find that in both cases the Passover occurred on Wednesday, at Sunset. This Timeline of the Passion Week then determines that the Triumphal Entry of Jesus was on April 10, 32 AD, on a Sabbath. Jesus then was technically on the Cross on April 13/Nisan 13. He died just prior to Sunset of becoming April 14/Nisan 14, the very Passover Seder Offering, as it was in Egypt during the Exodus. Then Jesus rose later after 3 Days of 24-Hour Periods. His Resurrection coincided with the Weekly Sabbath of April 17/Nisan 17, etc.

So, just to be clear, one is only presenting these Data Points as mere 'Observations' based on the Astronomy of the 2 Passover Blood Moons. One is just arguing that they provide a 'Confirming Witness', in one's Estimation. If True, is very Powerful and can change and confirm Historical Timelines that are convoluted by differing Calendar Types, perhaps in some cases on purpose. Nonetheless, one cannot give a Conclusive Argument that the actual Day of the Exodus was in -1448 BC due to the Blood Moon with 100% Confidence. But note that YHVH set the Sun, Moon and the Stars to 'Tell Time' and for Seasons, etc.

But more importantly and primary, they are to be for 'Signs'. Signs of what? Signs of what is coming. And such Appointments, Feasts or Seasons are to be precise, as Eclipses are. Consider though, that YHVH did not do, has not done nor will do anything randomly or 'Approximately'. No, the New Testament even notes that 'At the Right Time, Jesus died for Sinners'. So, the End of the Church Age, the Rapture, and the Start of the 70th Week of Daniel, will occur in a Predetermined Year, Month, Day, and Hour. That is why one does not believe in the 'Imminency' of the Rapture's Timing, but that is for another study.
