### **DEFECTS IN MATERIALS OR WORKMANSHIP:**

It is our experience that a product that fails prematurely due to a manufacturing defect in materials or workmanship, will generally do so very early in the products life cycle, often the first or second time the product is used. When returned for inspection, these products are generally found to still be in like new condition and show very little signs of use. It is uncommon for a product that was manufactured with a defect, to survive under normal use for any extended period of time. Products that are returned for warranty inspection after months or years of continuous reliable service are rarely found to be defective. The most common demand for service is the result of normal wear and tear issues, which are not considered to be a defect in materials or workmanship.

## No Other Express Warranty Applies

No employee, agent, dealer, or other person is authorized to alter this warranty or make any other warranty on behalf of “ JJ'S Rods & E-Z Firewall Boots”
