### The Rebellious Future of Business

Once in a while an event series is born that shakes things up, **it makes you think differently**. If you're an entrepreneur, small business owner, HR professional, a CEO or a community leader – and you've got something to say or to learn about talent, culture or technology at work– Disrupt is the place. Disrupt is an **information exchange** event designed to energize, inform and empower people in the HR, leadership and business operations fields.

You will network, let down your hair (if you have any left after dealing with employee drama) and hear from the boldest and most imaginative minds in a rapid-fire, ignite-style evening of 10 stimulating **5-minute keynote speeches** that are sure to challenge the tired and outdated business practices that business owners, leaders and professionals face on a daily basis. And yes, you just might need a drink for this! We've got you covered as this event is being held at a brewery. And it's coming back to Gainesville Florida!

### After Hours Event Overview:
