

Scoring Instructions for Suggestibility Questionnaires

- 1 Questionnaire #1 - Count the number of **yes** answers for questions #1 and #2. Give yourself 10 points for each yes answer. Now count the number of **yes** answers for questions #3 through #18. Give yourself 5 points for each yes answer. Now add the two numbers together and this is your total score for Questionnaire #1.
- 2 Follow the same instructions for Questionnaire #2.
- 3 Add together your score from Questionnaires #1 and #2 to obtain the combined score.
- 4 Locate your combined score on the top horizontal line of the graph.
- 5 Now take your score from Questionnaire #1 and locate that number on the far left vertical column of the graph.
- 6 Draw a horizontal line across the page from the #1 score and a vertical line down from the combined score.
- 7 The number in the box where the two lines intersect is your percentage of **Physical Suggestibility**.
- 8 Subtract your percentage of Physical Suggestibility from 100%, and this is your percentage of **Emotional Suggestibility**.
EXAMPLE: If you are 60% Physical Suggestible, then your Emotional Suggestibility is 40%, **or** if you are 70% Emotional Suggestible, then your Physical Suggestibility is 30%.

Scoring Instructions for Sexuality Questionnaires

- 1 Count the number of **yes** answers for **all** of the questions on Questionnaire #1. Give yourself 5 points for each **yes** answer.
- 2 Do the same for Questionnaire #2.
- 3 Now add the scores from Questionnaires #1 and #2 together. This is your combined score.
- 4 Locate your combined score on the top horizontal line of the graph.
- 5 Now take your score from Questionnaire #1 and locate that number on the far left vertical column of the graph.
- 6 Draw a horizontal line across the page from the #1 score and a vertical line down from the combined score.
- 7 The number in the box where the two lines intersect is your percentage of **Physical Sexuality**.
- 8 Subtract your percentage of Physical Sexuality from 100%, and this is your percentage of **Emotional Sexuality**.
EXAMPLE: If you are 60% Physical Sexual then your Emotional Sexuality is 40%, **or** if you are 70% Emotional Sexual then your Physical Sexuality is 30%.

Special Note

Once you have scored your Sexuality Questionnaire, refer back to the score for the Suggestibility Questionnaire. If you are a Physical Sexual with **more than 40% Emotional Suggestibility**, add 10% to your degree of Physical Sexuality. If you are an Emotional Sexual with **more than 40% Physical Suggestibility**, add 10% to your degree of Emotional Sexuality. Emotional Suggestibility has a tendency to decrease the manifestations of Physical Sexuality, thereby causing a person to appear less of a Physical Sexual than he/she really is. Physical Suggestibility decreases the manifestations of Emotional Sexuality, causing a person to appear less of an Emotional Sexual than he/she really is.
