2018 Plant List (wholesale pricing)

This plant list is not all inclusive. It gives a general representation of what we grow. We are striving to grow natives that are not readily available by wholesale growers; therefore, we are always adding new species to our inventory and phasing out others. Due to the rarity of many of these species, we don't always have large quantities available for market. Pricing not guaranteed. Please contact for availability: **Vanessa Crisler** (850) 553-4250 trilliumgardens@gmail.com

BOLD indicates butterfly larval food species.
