

Tempered Global Value Fund – Series F

as at September 30, 2019

The Fund

Tempered Global Value Fund is a mutual fund trust with an all-cap, go-anywhere mandate. The Fund is managed by Hhu Ng and David Briggs, portfolio managers with over 45 years of combined experience investing in global companies trading at discounts to their intrinsic value. The Fund is appropriate for investors with a higher tolerance for risk, who understand value investing, and who intend to invest for the long term.

Our Investment Philosophy

The principles of value investing pioneered by Benjamin Graham form the foundation of our investment strategy. We ensure that every investment has a **margin of safety**, which is the difference between a stock's intrinsic value and the price we pay. The key to a reliable margin of safety is a stable or growing intrinsic value. The greater the margin of safety, the greater our ability to preserve capital.

Our approach is highly concentrated, benchmark-agnostic, and driven by rigorous bottom-up analysis. We consider a permanent loss of capital as our measure of risk, not Beta. Cash is a residual of our opportunity set.

We are 'tempered' when faced with uncertainty, pessimism and fear over a downturn. We do not shy away from market volatility, but rather embrace it, as these situations provide investment opportunities.

About Tempered Investment Management Ltd.

Our firm was founded in 2010 by Hhu Ng, and is employee-owned. Our clients are institutions and high net worth investors who share our global outlook, long-term focus, and value philosophy. We align our interests with our investors by investing alongside them. We strive to build strong client relationships based on mutual trust and respect, and to steward all client assets entrusted to us like our own: honestly, responsibly, and with integrity.

The Managers
