

Word given by Pastor Dave July 22nd, 2018

A bright wind of the Spirit, the very Spirit of God is beginning to blow. Beginning to blow in this place, beginning to blow in this place. Being able to see His face. The very presence of the Great I Am saturating your life, coming within, growing within. A deeper and greater revelation of Him. And so in these days it's not time to draw back but to press in. It's not time to wait, the time is now! The Bible says the fields are ripe and white and ready for harvest. Ohhh, let the Spirit of God have free course in your life. Bright, bright and even those will say, "It almost seems like your face is glowing?" Yeah, that's the light. Glory to God! Hallelujah!
