"Making our community SMILE"

## A NEW YEAR WITH WPDC

2026 marks a year of improvements at Windsor Preventive Dental Care. Dr. Beth Nielsen is proud to have owned the practice for 10 years and spent the end of 2025 updating and preparing for the future at WPDC.

The building received a facelift with new porches, stairs, and roof. Clinically we have added state of the art technology such as digital scanning, 3D printing, and lab technologies to make crowns in the office. In our preventive care program we have also added new procedures to preserve and restore enamel surfaces. These improvements have brought WPDC up to speed with the latest in dental care and will allow us to provide five-star care for our patients.

JANUARY 2026

# NEW YEAR, NEW BENEFITS

Has your dental benefit plan changed since your last visit? Many dental benefit plans renew or change January 1st. Please present a copy of your new insurance benefit plan to our patient care coordinators at the front desk when you arrive for your appointment. They will be happy to verify dental eligibility at your visit.

## PREVENTIVE CARE BENEFITS

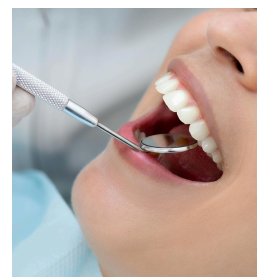

**WPDC** is very proud to partner with **Northeast Delta Dental** in the **HEALTH through ORAL WELLNESS** program. This program offers our patients additional preventive benefits under their dental care plan.

**ASK ANY OF OUR DENTAL TEAM MEMBERS IF YOU QUALIFY FOR THIS PROGRAM.**
