

Appendix: A

How to measure a fish

Use this method for all fish except for those listed below

Use this method for:
Amberjack, Barracuda, King Mackerel,
Spanish Mackerel, Florida /African
Pompano and Wahoo

Use this method for: False Albacore and
all Tuna

Length Measurement:

Total length (TL) is measured from tip of snout with mouth closed to top of compressed tail.

Fork length (FL) is measured from tip of snout to middle of fork in tail. Lower jaw fork length (LJFL) is measured from lower jaw to middle of fork at the tail.

Curved fork length (CFL) is the measurement of the length taken in a line tracing the contour of the body from the tip of the upper jaw to the fork of the tail.

See Appendix A for clarification

Anglers of the Year: Three club members will be awarded Angler of the year. The club member who has the largest number of fish, for each category, on the leader board at the close of the derby year, will be Angler of the Year. The Categories are: Fresh Water, Inshore Salt Water, and Salt Water.

Captain of the Year: The captain(s) whose boat has the most entries posted at the close of the derby year, will be captain of the year.

Vacation catches: The purpose of the derby is to recognize club members and the angling that is done in our local area. The club also wishes to encourage members with boats to take out members without boats so that everyone can get a chance to fish. It is understood by the club that many of member's fish while on vacation in other areas. If a member makes an exceptional catch while on vacation they can submit their catch to the derby director for possible special recognition at the end of the year. Vacation catches do not count for angler of the year.

Leader board will be displayed in the Marina office window and posted on the Club website.
