Glendale, AZ 85301

Faith-based living for  
adults with  
developmental  
disabilities

## BECOME PART OF OUR COMMUNITY

Located near 43rd Ave and Orangewood Ave. in Glendale, lovely residential homes promote a healthy, independent environment for developmentally disabled adults. Each resident has their own room and participates in the planning of activities, meals and daily life in their home to the level of their ability. Day programs, church and community events are a large part of resident life as well.

## OUR VISION

We exist to promote the physical, social and spiritual well-being of developmentally disabled adults. We will provide a living environment that encourages better quality of life for our community members, strengthens the family and encourages congregational and community involvement.

## LEARN MORE

Goldensun is an intentional faith-based community with a mission for serving adults with developmental disabilities capable of living independently with direct care services. Our desire is to empower individuals with developmental disabilities toward increased independence; and to enrich life experience through interdependent relationships.
