

Cybersecurity Services and Solutions

A boutique advisory and consulting firm that delivers comparable services with greater value than offered by the "Big Five".

Incident Response & Resiliency

Incident Response (IR) Planning: Comprehensive readiness assessments, playbook development, and incident simulation table-top exercises.

Emergency IR Support: Rapid deployment containment, digital forensics, threat eradication, and post-incident root-cause analysis.

Governance, Risk, and Compliance

Strategic Advisory: Virtual CISO (vCISO) services, cybersecurity roadmap design, and executive risk reporting.

Compliance & Frameworks: Gap assessment and audit readiness for GDPR, Fed Ramp, SOX, NIST, State Privacy, ISO 27001, SOC 2, HIPAA, and PCI-DSS.

Third-Party Risk Management: Vendor security evaluations, supply chain risk analysis, and continuous monitoring program design.

Technical Security Assessments

Penetration Testing: Targeted internal, external, and application-layer ethical hacking assessments.

Vulnerability Management: Automated internal scanning, risk prioritization mapping, and remediation guidance.

Architecture Review: Secure configuration audits for cloud infrastructure, networks, and hybrid environments.

Workforce & Awareness

Phishing Simulations: Managed social engineering campaigns designed to baseline and test employee susceptibility.

Security Awareness Training: Education modules tailored to general staff, high-risk personnel, and executive leadership.

COMPANY SNAPSHOT

Founded in 2017 and headquartered in Plano, Texas, Hybrid Advisors, LLC is a privately held consulting firm specializing in operational risk and enterprise resilience. We deliver services in assessment, cybersecurity, disaster recovery, cloud migration, compliance and governance.
