

- Today was Joelle's last meeting on the board. She will be missed!
 - Cheryl Dove to fill in through the end of the year.
- Roads: Estimated assessment is \$4500. The board would like to be apart of the walk through once Alan McComb schedules it with Goretski. The board will ensure the checklist has been completed and that the work is done to our satisfaction prior to our approval(for what its worth) of the remaining funds being released. Should have the exact number by October.
- The board would like to set aside a road rainy day fund to prepare for the road resealing in 5 years.
- Assessment likely to be apart of the winter taxes
- George has asked Michael Kalifa to bid out the lawn service for next year. Please include Cruz landscaping in the bidding process (he claims he'll beat any offer we get). 313-641-7342 Jeronimo Cruz
- Jared to begin bidding out snow plowing ASAP(flat rate). We will not use Highland going forward. Last year the estimated cost was \$6100 and we'll try to come under that for 2017/2018.
- We only salt the intersection when needed. They'll need to mark the corners with stakes so people don't drive over the curbs in the winter.
- Shawn to start the discussion around all Board tasks in our HOA and we'll work to divide them evenly. She will email them out to everyone as time permits.
- Brie to post on Facebook that people should not leave their mulch clippings piled in the corner of the street
- Brie to reserve a room at the Township hall on 10/12 7pm for a sub division wide meeting. This should be posted on to FB as well.
- Explore amending what we're willing to allow as a shed in our neighborhood
- George presented the current budget to the board and it was approved.
- Jared now has the text for the website from Lois and will work to get the new website live in the next few weeks. We can use stock photos.

The man responsible for weeding our entrances quit in July. Would any home owners be interested in helping?
