

# SMART NURSERY GUIDE

Professional Newborn Care System

*"Everything within reach. No rushing. No stress. Just calm, safe care."*

---

Designed by Certified Doulas | Evidence-Based Newborn Care

## OUR PHILOSOPHY

This guide outlines a professionally designed newborn care system built on one core principle: **everything within reach**. By eliminating unnecessary movement during night feeds and diaper changes, caregivers can respond immediately to their baby's needs while protecting their own body during postpartum recovery.

*"This is not just a nursery — it is a designed care system."*

Each section covers a key zone of your nursery — from the feeding station and diaper area to the bedside bassinet setup and environment controls — with specific product recommendations and the reasoning behind every choice.

## 1 Feeding Station

Baby's Feeding Area - chair, pillow, warmer, bottles, cloths, and easy-reach supplies

### Ergonomic Support Items

- Back Support Pillow - protects the spine during long feeds

- Arm Support Pillows — reduces shoulder strain
- U-Shape Firm Neck Pillow — supports baby safely during burping
- Footrest — improves circulation and body alignment

## Night Feeding Kit

*Cooler bag with pre-prepared bottles | Water dispenser + discard bowl*

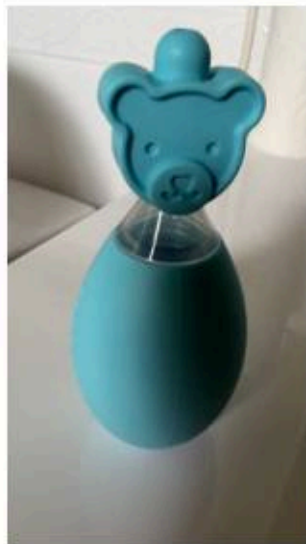

- Pre-prepared Bottles (3–4) — reduces night stress, no formula mixing in the dark
- Cooler Bag Storage — keeps bottles chilled and ready, no need to leave the chair
- Bottle Warmer — quick heating means minimal baby crying
- Water Pump Dispenser — refills bottle warmer with a controlled portion; cleaner and faster than pouring
- Water Bowl — discard excess water from bottle warmer; hygiene and spill control

## Feeding Accessories

*Muslin burp cloths (keep 10–15 within reach) | KeoBabies Bandana Drool Bibs — organic, absorbent & stylish*

- Burp Cloth (10–15 on hand) — quick-access catch for spit-up during burping
- V-Shape Bib Cloth with Button (16 pieces) — stays secure during feeding; protects clothing from milk and drool

*Bear-shaped nasal aspirator — safe airway clearance*

- Nasal Aspirator — critical airway safety tool; especially important during milk reflux or nasal congestion

## 2 Diaper Station — Back Protection System

### Why This Station Matters

Diaper changes occur **8–12 times daily** — over **3,000 per year**. Repeated bending and reaching places unnecessary strain on the lower back. All essential items should be at the same level and within arm's reach, supporting postpartum recovery while keeping changes smooth and safe.

Back-Friendly No-Bend Diaper Changing Station - all essentials visible, organized, and within reach

*Organised drawer system — diapers, wipes, and care products*

## Essential Items

- Eye-Level Storage System on a Table — no bending required
- Baby Disposable Underpads — protects changing surface
- Diapers (Huggies Size 1, 8–14 lbs) — stocked in bulk
- Wipes in Hard-Cover Dispenser — one-hand reach access
- Wipes Warmer — baby won't be startled by cold wipes
- Desitin Maximum Strength Cream — for active rash or irritated skin
- Aquaphor Baby Healing Ointment — daily prevention and mild redness
- Vaseline — for circumcision care
- Aveeno Baby Eczema Therapy Cream — use for eczema only
- Aveeno Body Moisturiser — use for after-bath massage
- Gas Colic Tush Tube (Frida Baby Windi) — for baby constipation relief
- Water Spray Bottle — spray on bum to remove poop easily and gently
- No-Touch Thermometer — quick temperature checks without disturbing baby
- Nail File / Clipper — safe nail care
- Dry Tissue Box — quick clean-up within arm's reach
- Lamp — adequate lighting for night changes
- Muslin Swaddle Blanket — quick warm wrap post-change
- Clothing Ready Stack — fresh outfits within arm's reach
- Diaper Pail / Disposable Diaper Bags — nearby odour control
- Dirty Clothes Container + Wet/Poop-Stained Clothes Container

## Cream Usage Guide

Skin Condition	Recommended Product
Skin looks normal	Aquaphor (prevention)
Slight redness	Aquaphor or light Desitin
Red / irritated rash	Desitin
Severe rash	Desitin (thick layer)

### 3 Bedside Baby Setup — Safety Priority

#### Safety First

The bedside setup is designed so caregivers can react instantly — without running across the room. Every item is positioned for immediate reach, anti-choking response, and minimal movement to protect the caregiver’s heart and recovery.

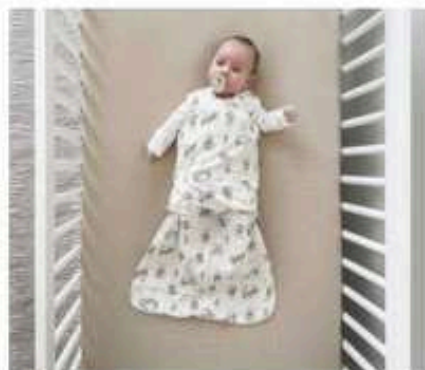

Bedside overnight care setup - bassinet, pumping, nursing, and diaper-change supplies within reach

*Bedside bassinet options — immediate reach position for caregiver*

#### Bassinet Requirements

- Immediate reach position — no getting out of bed required
- Anti-choking response access — side-turn safety handling
- Minimal movement distance for mom — protects heart and brain during recovery
- Open-side or drop-side design — easy baby transfer

#### Swaddle System

Mona Yin Tan Choo | chooyintan@yahoo.com | ☎ 626-996-4606

*Disney Baby x Halo SleepSack (#1 Choice of Hospitals) | Halo 3-way swaddle | Love to Dream arms-up swaddle*

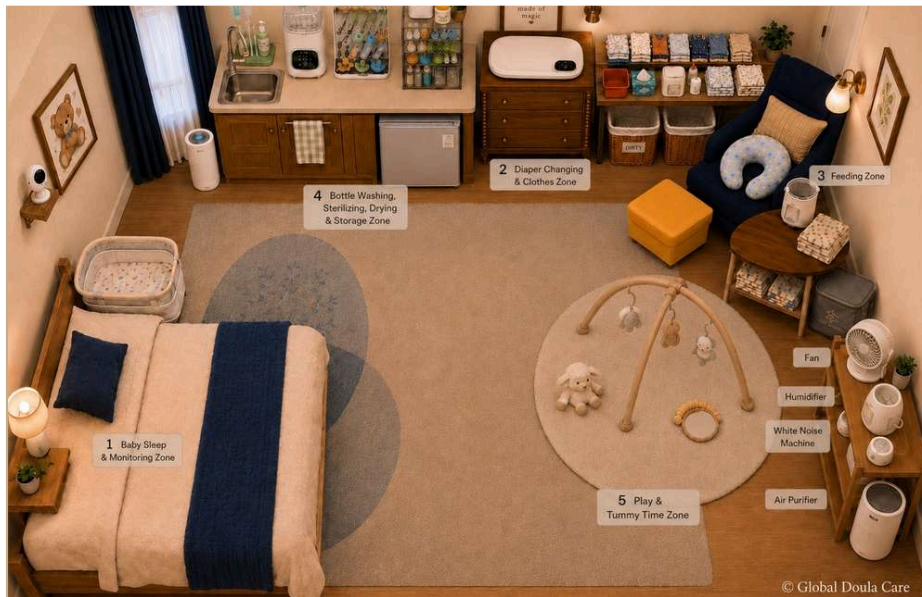

- Halo Sleepsack Swaddle — 3 pieces; wearable blanket with swaddle wings
- Love to Dream Sleepsack Swaddle — 3 pieces; arms-up design for self-soothing
- Muslin Cloth Swaddle (4 pieces, 40–47") — snug on top, loose on bottom; can layer over Halo/Love to Dream when baby feels cold
- Heated Tummy Wrap — gentle warmth for gas and comfort
- Breastfeeding C-Shaped Pillow — supports arm position during feeds

***A proper swaddle should be snug around the upper body and loose around the hips to ensure both comfort and safe hip development. Standard blankets: 40–47 inches square.***

# 4 Environment Control

## Critical for Newborn Sleep

Newborns are highly sensitive to temperature, humidity, air quality, and sound. A well-controlled environment dramatically improves sleep quality for both baby and caregiver.

Room environment layout - air purifier, humidifier, fan, white-noise machine, and safe sleep monitoring

## Environment Checklist

Element	Target	Purpose
Temperature	70–72°F (21–22°C)	Optimal sleep comfort
Humidity	40–60%	Prevents dry airways
Air Purifier	Always on	Removes allergens & dust
White Noise	50–65 dB	Mimics womb sounds
Fan / Heater	As needed	Temperature regulation
Humidifier	Daily in dry months	Nasal & skin health

5 Additional Care Essentials

### Baby Bottle Care Station

Wash → Sterilize → Dry → Store

♥ Clean, Safe, Ready for Baby

**1 WASHING ZONE**  
Clean all parts thoroughly

**2 STERILIZING ZONE**  
Wash, sterilize & dry in one machine

**3 DRYING ZONE**  
Air dry completely on rack

**4 STORAGE ZONE**  
Keep everything organized & ready

**1 WASH**

Use warm water and bottle cleaner. Brush all parts thoroughly.

**2 STERILIZE**

Use washer machine to sterilize & dry with ease.

**3 DRY**

Air dry on rack until completely dry to prevent bacteria.

**4 STORE**

Store in clean, dry drawers or bins until next use.

**Quick Tips**

- ✔ Wash hands before handling baby items.
- ✔ Clean bottles right after use.
- ✔ Make sure all parts are completely dry before storing.
- ✔ Check and replace parts regularly.

© **Global Doula Care**

Baby Bottle Care Station - wash, sterilize, dry, and store in one predictable clean zone

Always feed baby at a semi-upright angle to reduce air intake and reflux. After feeding, keep baby upright for 15-20 minutes. If baby has not burped after a long time, maintain an upright position to help reduce spit-up.

## Newborn Carrier

[Visit the BabyBjörn Store](#)

4.7 ★★★★★ (2,949)

BabyBjörn Baby Carrier Mini, Anthracite/Landscape Print, Cotton | Newborn Carrier (7-25 lbs), Ergonomic, Easy-to-Use

Amazon's Choice

1 sustainability feature ▾

*BabyBjörn Baby Carrier Mini — ergonomic, easy-to-use, rated 4.7★ (7–25 lbs)*

A newborn carrier allows caregivers to keep baby close for soothing, bonding, and upright positioning — while keeping hands free for other tasks.

## 6 No-Fold Baby Clothing System

### Premium Nursery Setup Consultation

#### No-Fold Baby Clothing & No-Bending-to-Search System — One Table, All On Same Level

Instead of folding every item, baby clothing is displayed flat or loosely stacked by category. This saves time and makes it easier for parents, doulas, and night caregivers to find clothing quickly — especially during busy newborn care routines.

Daddy, Mommy & Baby Room - organized care zones for calm daily and overnight newborn routines

**Benefits:** *Faster clothing changes · Easier for multiple caregivers · No time spent folding tiny baby clothes · Helps track inventory · Helps match colours and dress smart · Keeps clean, dirty, and daily-use items separated · Ideal for newborn care, overnight care, and postpartum recovery homes*

Service includes: baby clothing organization, diapering station setup, feeding station planning, burp cloth/bib stocking, swaddle organization, clean/dirty laundry flow, and caregiver-friendly labeling.

#### Baby Clothing Display & Easy-Access Stocking System

A no-fold clothing display system designed for fast access during diaper changes, bathing, nighttime care, and daily outfit changes. Clothing is grouped by purpose so caregivers can quickly find what baby needs without searching through drawers.

**1. Daily Outfits**

Ready-to-use clothing for daytime changes.

**2. Sleepers / Pajamas**

Easy access for nighttime changes.

**3. Onesies**

Choose ones with two-way zipper and convertible mitts and feet covered — saves time wearing mitts and socks.

**4. Baby Tops & Pants**

Placed near tops for easy outfit pairing.

**5. Swaddle Blankets**

Stacked neatly for sleep, feeding, or comfort use.

**6. Burp Cloths (10 pieces)**

Comfy Cubs Muslin Burp Cloths 20" x 10", Pack of 10. Kept near the feeding and changing area.

**7. Bib Cloths (16 pieces)**

KeaBabies 8-Pack Organic Baby Bandana Bibs — super absorbent triangle drool bibs for boys and girls.

**8. Hooded Baby Bath Towels (6 pieces)**

Size: 35 x 35 inches minimum. Material: soft cotton, bamboo, muslin, or terry cloth. The hood helps newborns retain heat quickly lost from the head after bath.

**9. Baby Washcloths (6 pieces)**

Burt's Bees Baby Infant Washcloths — for wipe-down and bathing the baby.

**10. Diapering Supplies**

Wipes, tissue, diaper cream, and changing essentials.

**11. Clean Laundry Basket**

Temporary holding area for freshly washed baby items.

**12. Dirty Laundry Baskets (2 pieces)**

Two separate baskets — used clothing separated immediately to prevent mixing wet and dry soiled items.

---

***Every element in this guide is intentionally placed to support safe, efficient, and stress-free newborn care.***

***This is not just a nursery — it is a designed care system.***

---

# Smart Nursery System

This e-brochure turns baby shopping into a practical care system. Products are grouped by station so families can prepare the home around real daily routines.

## 1. Clean & Sterilize

Use the bottle washing station to wash, sterilize, dry, and store bottles, nipples, pacifiers, and pump pieces in one predictable place.

## 2. Feed & Burp

Keep nursing pillow, bibs, burp cloths, milk bags, bottles, and warmers together for smoother feeds and quieter night care.

## 3. Change & Protect

Create a diaper station with wipes, diapers, changing pads, rash cream, lotion, hygiene tools, and thermometer within arm reach.

## 4. Sleep & Air Comfort

Set up bassinet, swaddles, sleep sacks, white noise, air purifier, fan, humidifier, monitor, and room-temperature tools thoughtfully.

## 5. Go Out Prepared

Use outdoor gear, diaper bag, warmer, stroller, carrier, bouncer, and cold-weather layers for appointments and family outings.

## 6. Reset Daily

Each morning and evening, restock diapers, wipes, burp cloths, bottles, clean pump parts, fresh clothing, and diaper-bag essentials.

## Important Safety Notes

- **Safe sleep:** place baby on back on a firm, flat, approved sleep surface; keep loose blankets, pillows, toys, and extra items out of the sleep space.
- **Temperature and devices:** use heaters, fans, humidifiers, monitors, warmers, and electrical items only according to the manufacturer manual.
- **Health items:** creams, oral care tools, gas relief products, fever cooling pads, thermometers, and tummy wraps should be used with pediatric guidance when needed.

# Complete Shopping Checklist (continued)

## Smart Nursery Quick Setup & Daily Reset

### Before Baby Arrives

- Build each station before due date.
- Wash textiles before first use.
- Sterilize bottles and organize clean parts.
- Check batteries, cords, filters, and manuals.

### Morning Reset

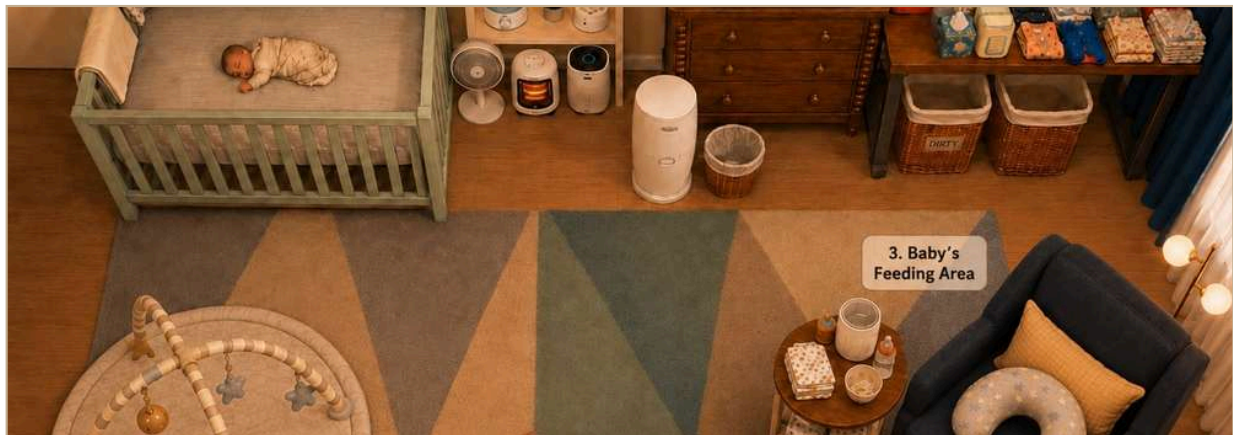

- Restock diapers, wipes, changing pads, and tissue.
- Move clean bottles and pump parts to the feeding zone.
- Refill diaper caddy and diaper bag.
- Prepare fresh clothes, burp cloths, and bibs.

### Night Reset

- Set out only the next needed feeding items.
- Keep the night area dim, calm, and uncluttered.
- Confirm safe sleep surface is clear.
- Check room comfort: air, humidity, temperature, and white noise.

### Outing Reset

- Pack diapers, wipes, changing pad, bib, burp cloth, spare outfit, bottle supplies, and weather layers.
- Keep emergency items easy to reach: thermometer, tissue, sanitizer, and pacifier storage.

Baby's Nursery - sleep, diaper, feeding, and tummy-time zones in one calm care system
