

## REACH Directive 2006/1907/EC

November 1, 2021

Dear Valued Customer,

Registration, Evaluation, Authorization, and restriction of Chemicals, or REACH, consists of legislative framework developed by the European Union to manage the risks that chemicals may pose to human health and the environment. This framework requires industry to register any of the current **219** substances listed on the SVHC candidate list if greater than 0.1% allowable under the directive 2006/1907/EC.

Specialty Nameplate & Manufacturing, Inc is a manufacturer of custom nameplates and processor of specialty hardware metal strapping for use in assembly of c-cores; not a producer of ferrous or non-ferrous materials. To this end, we have contacted our vendor base requesting their compliance with the REACH directives. This includes the latest substances added on July 8, 2021. In addition, Specialty Nameplate & Manufacturing, Inc does not knowingly add or expose these materials to any of the substances deemed hazardous under the EU Directive, during any of our internal processing operations. Any possible trace amounts of these substances, equal to content naturally occurring in mined metals may exist, which is well below the allowable percentages.

Specialty Nameplate & Manufacturing, Inc maintains compliance thru our supplier's certifications, and assumes no liability in any form for damages or any legal costs, caused by certified vendor supplied materials. All suppliers are required to notify Specialty Nameplate & Manufacturing, Inc of any material that does not meet these standards.

**Notes:**

1. It is the responsibility of Customers to check for special compliance of any "special request" for products that Specialty Nameplate & Manufacturing, Inc does not carry as a standard stock item.
2. Any Customer who has doubts about our formal "Mill" certifications, should test for chemistry prior to use of the materials.
3. To our knowledge, Specialty Nameplate & Manufacturing, Inc does not contain any of the current **219** substances listed on the SVHC Candidate list, more than the > 0.1% allowable under the **REACH** Regulation.

If you have further questions, please do not hesitate to contact us.

Sincerely,
