ARTIST BIO

Jackers Revenge, led by Boston-based DJ Simply Dennis, is a dynamic force in the Nu-Disco and House music scene, bringing infectious energy and sophisticated production to dance floors worldwide. As part of the acclaimed producer/DJ collective, Jackers Revenge represents the evolution of disco-infused electronic music, drawing comparisons to industry heavyweights like Block & Crown, Crazibiza, and Dombresky ("Disco Dom") for their genre-defining sound and professional approach.

Operating within The Funky House Collective alongside Block & Crown and Ghostbusterz, Jackers Revenge has established themselves as a key player in the underground house movement. Their sound seamlessly blends classic disco elements with modern house production, creating an irresistible groove that captivates both underground enthusiasts and mainstream audiences.

Beyond the studio, Jackers Revenge is deeply committed to using music as a force for good. A corporate CEO for over 20 years, Dennis is the CEO & founder of the non-profit called DJs For A Cause that partners with other foundations, charities, and organizations to bring EDM music to events using world-class DJs in order for those organizations to maximize their fundraising through great events.

Dennis also has been producing music for his solo projects and is becoming a force in house music particularly with Afro House, Deep House, and Popular House Music as his other genres that he's known for.
