

Treat Yourself To *Smarter, Cleaner Glass*

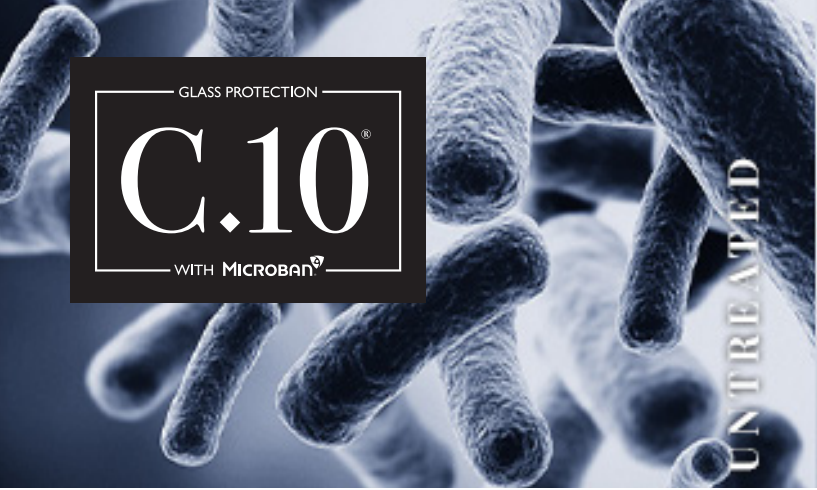

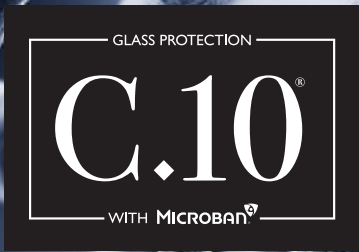

The first custom shower glass manufacturer to offer Microban[®] antimicrobial product protection.

On an unprotected surface, stain and odor-causing bacteria can double in number every 20 minutes. Protect your shower glass by choosing the clear leader in cleanliness. HMI's C.10 is even more powerful with the addition of Microban antimicrobial protection, which works continuously to keep shower glass cleaner in between showers. From the hospitality industry to homeowners, everyone will appreciate this added peace of mind.

HMI
INNOVATORS IN GLASS

HMI Offers Advanced Invisible Protection

HMI's C.10 Glass Protectant with Microban® technology is the premium choice for maintaining high-end shower enclosures and other glass products.

INVISIBLE PROTECTION, VISIBLE CLEANLINESS

The clear coating of C.10 protects your shower glass for improved product cleanliness. You'll notice less mold and mildew between showers.

EFFECTIVE AGAINST A BROAD SPECTRUM OF BACTERIA

Enjoy peace of mind that Microban technology is proven to fight the growth of bacteria on your shower glass. It will not wash off or wear away.

AT WORK FOR YOU, 24/7

Microban technology is working around the clock to actively reduce the growth of bacteria for protection that lasts the lifetime of your shower.

EXTENDED PRODUCT LIFETIME

When you protect your glass from the growth of degrading microbes, you extend the life of your beautiful shower and safeguard your investments.
