

The Alberto Longo winery was established in 2000, but in the hills of Daunia, the Longo family has been shaping local agriculture since the 1960's. Beginning with modest vineyards and olive crops, the family passions brought forth a formidable reputation for crafting proper wines that seek to exemplify the Puglian terroir. Utilizing hand-harvesting, sustainable practices, and renewable resources, the winery seeks to usher in top-tier wines vintage after vintage. The wines are certified Organic, and the vineyards are managed using biodynamic methods.
