

**PUBLICITY REPORT
2019
BY MICKI LINEHAN**

Here we are getting ready for another wonderful convention and RASCOE Annual Meeting. So many things have happened over this past year. The best part of being retired is being able to enjoy the things we didn't have time for while we were working. Many of you have sent me articles and input for our newsletters. Thank you. I'm pretty sure I'm not the only RASCOE member that enjoys reading about what is going on in the lives of the friends we have across the country. It keeps us in touch, informed and smiling with memories of fun times we've had over the years.

We continue to send you three newsletters a year. Winter, Spring and Summer. Do you feel like you are getting enough information from RASCOE? Would you like to see something new or different in our newsletters? Please let me know and I will see what I can do to make it happen. Those of you that have provided your email address receive our newsletter online and also receive email "blasts" when appropriate. Those who chose not to provide us with their email addresses, or don't have email, receive the mailed paper version.

We also communicate through our Facebook page. Just search RASCOE Association. I have posted several articles that affected RASCOE membership and many of you have also posted things. It's an effective place to post reminders, questions concerning RASCOE and life events of RASCOE members. Thank you Past President Brenda Boomer for setting up the RASCOE Association FB page a couple of years ago.

Another important recognition tool is the "Spirit of RASCOE" award that is presented to a deserving member that has been nominated. There are so many special people out there that do a great deal of work at their state level for RASCOE. We need to nominate and recognize them. I put a "Spirit of RASCOE" nomination form in every newsletter, and I would be happy to mail or email the form if someone wants to receive it that way.

Have a wonderful time in Manhattan, Kansas!!
