5 Tips for Closing Process Gaps in Food & Beverage Applications

winnieleeconsulting@gmail.com

Swipe Left 

Identifying the issue

What is the issue? When is it showing up?
What changed?

Map out Current process

Review your block diagrams (or create them)
and review existing data against KPIs

Conduct a Root Cause Analysis

Sometimes an issue can be caused by multiple reasons. Conducting a root cause analysis with the full cross-functional team will help put the big picture together.

Narrow down the theories

Group theories from the root cause analysis
and prioritize and test

Implement and Monitor

Once you've identified the root cause, determine an action plan forward and a monitoring plan to ensure it does not reoccur in the future.
