

Use of Children's Images

Parental Consent for Photographs/Images taken at Motion and during off site activities and events

Note: The word images is used here to include photographs, digital photographs, webcam, film and video recordings

During your child's time at Motion Dance Company, pictures/images will be taken of them involved in group or class activities, events and performances. These may be displayed at our annual show or on our website. These images are considered as personal data under the General Data Protection Regulation 2018.

In order for us to display images we need your informed consent and permission. Images may also be displayed on social media as we have a Facebook page. It is only me (Amy Eccles) who will manage these images.

Please sign at the bottom of this page to provide your informed consent and permission for images as described to be taken of your child during their time as a registered pupil at Motion Dance Company.

Note: Under GDPR we require informed consent for the use of your child's photo. If you do not sign this form we will not be able to use pictures or images of your child.

Yours Truly

Amy Eccles (Principal of Motion Dance Company)
