Mike's Diary

Dear Diary,

As you know, I am interested in space travel. I would love to see a flying saucer and meet the people who ride in them. Well, today as I was walking past the clubhouse, I heard a terrible screaming. I rushed over and went inside. Juan and Alice were there, and they looked scared. Some tiny footprints were all over the floors and ceiling of the clubhouse. Alice asked me if I knew anything about it. She told me that they had just got there and were as surprised as I was. She said that no one had been in the clubhouse earlier because it was locked. I didn't want to be hasty, but it surely looked like the footprints of some little men. I asked Juan who could have done it. He said he did have one clue. He had the feeling that little green men were following him all day long. Just as I was thinking he might be right, Juan and Alice began to laugh. It was only a trick, dear diary.
