

Name _____ period _____

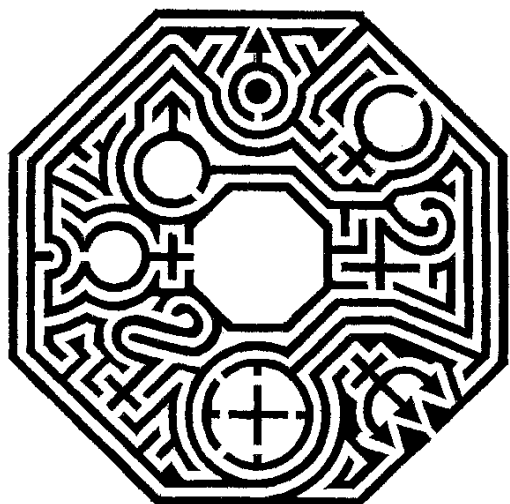

DO NOW

WEEK 4

8.5C Interpret the arrangement of the Periodic Table including groups and periods, to explain how properties are used to group elements.

Use this Periodic Table for the next questions.

Date _____

Elements on the Periodic Table are classified as metals, nonmetals and metalloids. An element has a yellow appearance and is dull, brittle and non-conductive. In which section would it be located and what type of element is it?

1. Underline the question.
2. Box the important vocabulary words.
3. Tell something else you know about this topic.

4. Answer the question in the space below.

Date _____

When elements are placed on the periodic table they are placed in groups according to their physical properties. An element has a silver appearance, is shiny, malleable and conducts heat and electricity. In which section would it be located and what type of element is it?

1. Underline the question.
2. Box the important vocabulary words.
3. Tell something else you know about this topic.

4. Answer the question in the space below.

Date _____

Some elements have physical properties of both metals and nonmetals. An element has a metallic-grey appearance but does not conduct electricity. In which section would it be located and what type of element is it?

1. Underline the question.
2. Box the important vocabulary words.
3. Tell something else you know about this topic.

4. Answer the question in the space below.

Date _____

Use your own Periodic Table for the next two questions.

The elements Ne, Ar, Kr and Xe are all in the same group. Why have they been placed in group 18?

1. Underline the question.
2. Box the important vocabulary words.
3. Tell something else you know about this topic.

4. Answer the question in the space below.

Date _____

The number of protons tells the identity of an element and the number of electrons. Write a list of 4 elements that increase in the number of protons and write the number of protons beside the symbol.

1. Underline the question.
2. Box the important vocabulary words.
3. Tell something else you know about this topic.

4. Answer the question in the space below.

C	S	U	D	D	T	W	L	A	B	L	Z	Z	U	S
