

Name \_\_\_\_\_ period \_\_\_\_\_

## 7<sup>th</sup> Grade DO NOW

7.12E Compare the functions of the cell to the function of organism

7.12F Recognize that according to cell theory all organisms are composed of cells

Date \_\_\_\_\_

Cells make up tissues and tissues make up organs. Organs make up organ systems and organ systems make up organisms. The function of the nucleus is to direct the cell's activities. What directs the activities of an organism?

1. Underline the question.
2. Box the important vocabulary words.
3. Tell something else you know about this topic.

\_\_\_\_\_  
\_\_\_\_\_

4. Answer the question in the space below.

Date \_\_\_\_\_

All of the organelles in a cell have a specific function to perform. Plant cells have chloroplasts that make the food during photosynthesis. What function does the vacuole perform?

1. Underline the question.
2. Box the important vocabulary words.
3. Tell something else you know about this topic.

\_\_\_\_\_

4. Answer the question in the space below.

Date \_\_\_\_\_

Which of the following is the major idea of the Cell Theory?

- A. All living things are made up of cells
- B. Some living things come from non-living things
- C. No living things have cells

## Cell Puzzle

Date \_\_\_\_\_

Who of the following list DID NOT contribute ideas to Cell Theory

- A. Robert Hooke
- B. Albert Einstein
- C. Schleiden and Schwann
