Today we are going to talk about how dangerous it is to talk to a stranger online. Reassure the student that you are not here to tell them technology is bad or that apps are bad but you are going to share with them that bad people use technology and these apps to get to YOU. I am going to show you how to be safe while your online with the help of Mrs. Skipper the Founder of a local non-profit called One Child At A Time.

Instruct students to pay attention to the following information. (At the end of the class YOU will be handing out FREE Tee-shirts/Bracelets from Ms. Skipper to the first student to raise their hand with the correct answer). The answers can be found in Step #4
