FOOD ALLERGEN GUIDE • October 18, 2026

Your safety matters to us. Please tell our team about any food allergy before ordering. This guide identifies allergens based on available recipes and product labels. It cannot guarantee an allergen-free meal.

Menu allergen information

MENU ITEM	IDENTIFIED ALLERGENS / NOTES
Hush puppies	Wheat, milk, egg, soy
Mac & cheese	Milk, wheat
Brunswick stew	Milk, wheat
Potato salad	Egg
Coleslaw	Egg
Green beans	Milk
Corn muffins	Wheat, milk, soy
Banana pudding	Milk; wheat, egg and soy indicated in components
Chicken tenders	Wheat; additional allergens possible
Battered French fries	Wheat; additional allergens possible
Breaded shrimp	Crustacean shellfish, wheat; additional allergens possible
Baked beans	No major allergen identified in documented ingredients; sauce batch must be checked
Peanut butter cookie	Peanuts, milk, soy indicated; complete label should be checked
Triple chocolate cookie	Wheat, soy indicated; complete label should be checked
Pork, brisket & chicken entrées	Varies by bun, rub, sauce and sides
Sauces & chili	Varies by recipe and blend

Important: shared fryer

Chicken tenders, battered fries, hush puppies and breaded shrimp are cooked in shared fryer oil. These items may have cross-contact with wheat, milk, egg, soy and crustacean shellfish. We do not have an allergen-free fryer.

Before you order

Please ask a manager to review your exact order, including bread, toppings, sauces, sides and preparation. Ingredient substitutions and shared equipment can change allergen exposure. Items with unverified ingredients

should not be considered safe for an allergy.

This is an ingredient reference, not a guarantee. Product formulations and suppliers may change.
