Trendzact

Virtual Supervisor protects sensitive data, maintains regulatory "clean desk" compliance and improves productivity.

PROBLEM

o Supervisors are too busy to adequately monitor

o Remote workspaces vulnerable to sensitive data misuse

o Remote workspace susceptible to productivity interruptions

o Hybrid centers have difficulty unifying teams

o Secure "clean desk" compliance must be enforced

ANALYTICS

✓ Productivity tracking **–** Time spent on work

✓ Compliance risk rating **–** Review previous alerts

✓ Observation Room **–** Real-time visual alerts

✓ Forensic Auditing **–** Access logs and images

SOLUTION

Virtual Supervisor analyzes wide-angle webcam snapshots and alerts:

WHO is at the computer through facial identify verification

WHAT is in and around their workspace

WHERE they are located through IP and WiFi signals

HOW they feeling based on facial expression
