Company Overview

Nomijo Enterprises LLC is a professional services firm specializing in **integrated project management, facilities support, and event logistics oversight**. We serve as a strategic management consultant and owner's representative, providing professional planning, coordination, quality assurance, and compliance oversight for complex, multi-disciplinary projects.

Utilizing a proven **Integrator Model**, we serve as the single point of accountability, overseeing licensed and insured subcontractors to ensure projects are delivered on time, within scope, and in strict adherence to regulatory requirements. We reduce the operational burden on government and commercial clients by managing the full lifecycle of project execution and multi-vendor coordination.

Core Competencies

Management Consulting & Project Coordination

- **Primary NAICS: 541611** – Administrative Management & General Management Consulting
- End-to-end project management and owner's representative services.
- Administrative and operational consulting with a focus on compliance and quality assurance.

Construction & Trade Oversight *(Coordination of licensed and insured subcontractors)*

- **NAICS 236220, 238140, 238160, 238210, 238220, 238320, 238990**
- Oversight for commercial/institutional building, masonry, roofing, and painting.
- Mechanical and electrical systems coordination (HVAC, Electrical, Plumbing).
- Multi-disciplinary project management for specialty trades.

Facilities Support & Building Services

- **NAICS 561210, 561720, 561730, 561740, 561790**
- Comprehensive facilities operations and building support functions.
- Coordination of janitorial, landscaping, and specialty cleaning services.

Events, Conventions & Hospitality Logistics

- **NAICS 561920, 711320, 722320**
- Event planning, convention, and trade show logistics.
- Public programs and live performance coordination.
- Catering logistics executed by qualified third-party providers.

Differentiators

- **Decades of Experience:** Hands-on management and oversight across diverse industries.
- **The Integrator Model:** A proven approach to multi-vendor and multi-discipline coordination that reduces client risk.
- **Compliance-Driven:** Strict adherence to subcontractor management and safety standards.
- **Scalability:** Adaptable support services tailored to the specific mission of government agencies.
- **Operational Clarity:** Clear separation between professional management services and licensed trade executes

Past Performance Highlights

- **Renovation & Maintenance:** Managed multi-vendor renovation projects, serving as the single point of accountability for delivery.
- **Trade Coordination:** Successfully coordinated licensed electrical, HVAC, and plumbing subcontractors for complex building upgrades.
- **Facilities Management:** Oversaw building operations for high-traffic hospitality and public venues.
- **Event Execution:** Planned and executed live entertainment and public gatherings, managing all logistics and catering vendor oversight. *(Commercial experience—detailed references available upon request)*
