

The following are suggestions for what to prepare for your dog's Daycare Day with Pawsitive Pet care:

- ☒ Please ensure you are familiar with our fees and cancellation policies prior to booking. You can ask Jillian or find the information on our website at <https://pawsitivecare.ca/doggy-daycare>.
- ☒ You are welcome to bring comfort items from home for your dog (i.e. an old t-shirt that smells like a family member, a favourite toy, or blanket).
- ☒ Please put your dog's name on anything that has a tag or that you can write on.
- ☒ Please provide food if your dog eats during the day-time, plus treats if your dog has any food allergies, and include written feeding instructions (amounts, usual time, any allergies, etc.). You are welcome to bring your dog's own food & water bowls and we will have extras on hand that we wash between each guest.
- ☒ Please bring any medications needed with specific administration and dosing instructions from your dog's veterinarian.
- ☒ Please ensure your dog has proper **I.D.** on his collar with up-to-date contact information.
- ☒ Please bring a regular 6-foot leash (nylon or leather) and a regular collar (buckle preferred). If your dog pulls on walks, or if you prefer using them, please also provide your dog's harness or head collar. We do not use any collars or equipment that may cause the dog pain or fear. Please ensure all equipment is fitted properly so your dog cannot slip out while on a walk.
- ☒ If you will be difficult to reach during the workday, please provide a name and number of a trusted person in town in case of emergency. Please also provide them with our contact information.
- ☒ All dogs **must** be up to date on vaccinations according to their veterinarian prior to boarding and daycare, including bordetella (kennel cough). Please note that bordetella vaccinations take approximately 2 weeks to take effect and only last between 6 months to one year, so it is best to book a vet appointment 2-4 weeks before boarding your dog.
- ☒ Feel free to contact Jillian with any questions at all, and to check in with us during your trip. Your dog will be treated as part of our family while you are gone.
