

# 'THIS TOO SHALL LAST'

Spencer Mar Guilburt

## *"THIS TOO SHALL LAST"*

*When deeply considering the age old adage, which has been spoken and written in countless ways, across various cultures throughout human history, "this too shall pass" started to feel a bit disingenuous. The temporal nature of life and all things is not to be denied here but, rather the idea of difficult moments or hardships truly "passing" or leaving our being is. Things do not simply pass once the unpleasant event has gone by, they stay, becoming a part of us. The things we do to cope with the hard times, to occupy our minds during great duress, are the things that we become. These habits or mechanisms become us and we them. "This too shall last", really means finding ways to get through the temporary darkness to have lasting insight and light.*
